

The La Crosse Tribune

VOLUME VIII, NUMBER 153.

LA CROSSE, WISCONSIN, FRIDAY, NOVEMBER 10, 1911.

PRICE TWO CENTS

IN STATEMENT TO MAYOR AND DISTRICT ATTORNEY FRANK SCOTT CHARGES YOLTON AND M'GRATH WITH POLICE GRAFT

HOTEL MAN SAYS HE WILL GIVE UP WHOLE STORY

Declares He Personally Paid Men Total of \$180 and Brother Also "Dug Up"

HE TELLS OF OTHER VICTIMS

Gives Officials Names of Proprietors of Sporting Places Who He Says "Come Adress"

In a statement made this afternoon in the presence of James Thompson, district attorney, Frank Scott, proprietor of the European hotel, 216 North Second street, made the specific charge that he has paid a total of \$180 to Detectives Frank Yolton and Joseph McGrath for "protection."

Scott made the further statement that his brother, Burt Scott, had paid money to Yolton and McGrath as the agent for Louise Lebre, a woman who prior to her death was proprietor of a resort at 128 Jay street.

Scott related at length the history of the "big mitt" business as he says, was conducted by the accused officers, and declared he is prepared to take the witness stand and tell all he knows. He says Burt Scott also will take the stand, and that he believes a number of others will do so.

"Got Cold Feet"

Scott asserted that early in the year a number of the proprietors who had been paying for protection, tired of the "hold up," and had made affidavit setting forth that they had paid money for "protection," but that later they "got cold feet" and the affidavits were destroyed.

Will All Talk Now

It is understood that, realizing that their only safety now lies in telling all they know, the proprietors are ready to give up information to the mayor.

Frank Scott's statement was related to Mayor Dengler this afternoon.

Frank Scott cited only two instances in which he said he had given money to McGrath, but he declared that his brother had dealt directly with that officer.

Scott also charged Yolton with having been an habitue of his place, where he "entertained company," and "had the run of the house," paying nothing for food, services and drinks. He told also of an instance in which he and a man named H. W. Beach, who was the husband of Louise Lebre, had entertained Yolton several days in Chicago as their guest.

"Asleep at the Switch"

The hotel man also declared that Yolton was asleep in his place at the moment when John Studier, foreman of the button works, was murdered; that he (Scott) awoke the detective, who at once reported for duty and finally arrested the murderer.

GUARD MORALS OF EMPLOYEES

Commission Calls Attention to Resort Running in Full Blast Near Big Factory

MAYOR PROMISES TO ACT

Says He Will Take Vigorous Action in Case Law Has Not Been Enforced in City

Mayor John Dengler this morning announced that he had believed that the "resort" referred to by the commission had been closed. He further stated that he would investigate personally and that if it was found to be running he would take vigorous action to see that it is closed and kept closed.

That the industrial commission of Wisconsin will take charge of a clean-up plan to insure better moral surroundings for employees of factories in La Crosse came to light today when the mayor, city attorney, chief of police, district attorney and sheriff received word from the commission quoting the law on the moral surroundings of factories, and suggesting that the matter be investigated here.

The action of the industrial commission is the result of a letter received by the commission from Geo. B. Marvin, Jr., in which it was charged that a resort was running in the neighborhood of a knitting factory. The letter explains that the place was closed following an investigation by a state factory inspector but maintains that the place is now running in full blast.

The industrial commission writes the officials that it has power to regulate factories in regards to the health, safety and moral welfare of the employees.

The commission requests that the officials investigate the charges that a resort is operating near the factory and to learn whether the moral well being of the employees of other La Crosse institutions are reasonably safeguarded.

LINERS IN COLLISION

LIVERPOOL, Nov. 10.—The Canadian Pacific liner Empress of Britain arrived here today after a collision with the steamship Calchaen off the Chicken Rocks. The Canadian vessel was badly damaged. How seriously the Calchaen suffered is not known.

to intimidate him into silence was being made, declined to talk.

A Peculiar "Fine"

Among the charges made is one to the effect that Yolton, finding that outside women had visited "Doc" Bennett's place in violation of law, had entered her place and "fined" her \$52.50, with the warning that if she ever mentioned it he would "put her out of business."

Burt Scott is now in South Dakota, but will either make affidavit or come here to testify if he is wanted.

Thompson Alert

"This matter will naturally go first to the Police and Fire Commission," said District Attorney Thompson after his interview with Scott. "If the evidence produced there seems to warrant criminal proceedings, they will be taken. If the evidence seems insufficient, but it is indicated that further inquiry would show existence of crime, the matter will be taken before Judge Higbee who will pass upon the question of whether or not a grand jury shall be called."

WANTS VOTERS TO NAME PRESIDENT

Houser Writes Heads of States in Behalf of Presidential Primary Plan

DEMAND BECOMES GENERAL

Says La Follette Men Are Ready to Submit His Name to the People of U. S.

WASHINGTON, Nov. 10.—In a spirited letter mailed today by Walter L. Houser, chairman of the progressive republican campaign committee to all governors, lieutenant-governors and the speaker of the lower house of state legislatures, the question is raised whether the voters of the party shall name the nominee for president at the 1912 republican convention. Houser says: "I beg to submit for your consideration a resolution adopted by the conference of progressive republicans in Chicago October 16, as follows: 'We favor the ascertainment of the choice of republican voters as the candidates for president and vice-president for a direct primary vote held in each state pursuant to statute, and where no such statute exists, we urge that the republican state committees provide that the people be given the right to express their choice for president.'"

"As you know, there is statutory provision for the presidential preference primary in five states. In some other states it is probable that provision for such primaries will be made by legislative enactments this winter. Where it is not possible to make such provision by law, the resolution quoted urges the republican state committees to provide means through which the people may be given the right to press their choice of candidates. In many states there is legal provision for direct nomination of state officers. Where this is the case, it will not be difficult for the state committee to make supplementary arrangements for presidential preference primaries."

"In behalf of the progressive republican campaign committee, I write to you, and through you your fellow members of the republican state committee to take steps to enable the republicans of your state directly to express their choice for the republican nomination for president, by law if possible, and if not, by action of your committee."

SUSPEND "COPPER" FOR MISCONDUCT

Patrolman T. C. Mahoney has been suspended for drinking while on duty, according to G. M. Woodward, head of the police commission. Mahoney will be allowed a hearing by the commission on November 17.

Although the matter of members of the force receiving protection money from keepers of resorts was not presented officially to the commission at a meeting Wednesday, Chief Weber told the commission that he was investigating this and would probe deeply into it.

Although Mahoney is the only member of the force who has thus far been suspended, Chief Weber said this afternoon that another one was liable to be. He said that the charges are of such a peculiar nature that he is going to make a thorough investigation of the matter before he takes any action because he does not wish to do anybody an injustice. The suspension, said he, will not take place today.

DIVER AT WORK ON INTAKE PIPE

A diver is today at work at the intake pipe at the river and he will take soundings at many different places around the mouth in order to ascertain definitely the conditions existing. J. T. Day of the board of public works secured the diver and work was started this morning, but up to a late hour no figures on the exact state of affairs had been obtained.

Mr. Day announced this morning that although he would not be certain as to what action to take until the diver had reported, that he contemplated extending the intake pipe several hundred feet or out to the channel if possible. He asserts that this is a necessity if the citizens are to get the best water obtainable.

MAY AGREE ON BRIDGE QUESTION

Trempealeau County Supervisor Visits La Crosse in Regard to McGilvray Bridge

WOULD SHARE THE EXPENSE

Minnesota Board Willing to Maintain Road and Upkeep of the Structure

Again the McGilvray bridge question pops in. The old bone of contention between La Crosse and Trempealeau counties is not to be buried as was thought following the damage done during the recent flood which resulted in the destruction of Black River Falls. On the contrary today's developments indicate that the question will not only be brought before the county board but that an agreement between the two counties will be reached.

Frank Bender, supervisor on the Trempealeau county board from the town of Caledonia, where the bridge is located, in consultation with the road and bridge committee of the La Crosse county board today urged that the committee bring the matter before the meeting of the board which is to open Tuesday and declared that he is positive that the county board of Trempealeau county will agree to meet its share of the expense of maintaining the bridge and will assume the burden of keeping the highway in Trempealeau county, leading to the bridge, in good repair.

The members of the road and bridge committee today decided to send a committee of the supervisors to attend the meeting of the Trempealeau county board, to urge that body to co-operate on the McGilvray bridge question.

Highway Commissioner Hintgen was instructed to make an estimate of the cost of repairs necessary to put the road leading to the bridge from La Crosse county, in good condition and will make a report to the road and bridge committee Monday.

The road and bridge committee made a trip to the McGilvray bridge yesterday for the purpose of examining the condition of the highway and the condition of the bridge.

STEAMBOAT "WAR" ALL IMAGINARY

The Waterways Journal, published at St. Louis, a recognized authority on marine affairs in the Mississippi valley, under the heading "A Joke" makes the following comment on the story emanating from Davenport that a steamboat war on the Mississippi river has been precipitated by the Streckfus line entering the St. Louis-New Orleans trade:

"It is full of errors as to the territory covered by the Lee line and number of boats. The Lee line never negotiated with the Streckfus line because the latter does not take freight for any point in the St. Louis-Memphis trade. To the contrary, the two lines are on the friendliest terms and Capt. Bob Lee is heartily in favor of the Quincy's entering the New Orleans trade and realizes the advertising the river derives from the move will be a benefit to him. The story is probably started in order to get the two lines in an argument and start something but the heads of the two lines are too large to listen to fairy newspaper stories."

COUNCIL MEETING TO BE SHORTENED

According to aldermen, the meeting of the common council this evening will be a short one in order to enable any who wish to attend the Charity Ball, and after some of the routine business is disposed of it is probable that it will be decided to hold an adjourned session next Friday or in two weeks.

For this reason it is said that the matter of the well system will not be brought up at all this evening but that it will be held over to the adjourned meeting. According to present indications the budget will not be brought up either as all the information desired has not as yet been received.

NORMAL TO PLAY RIVER FALLS TEAM

The Normal school will play its last big game of the season on the local gridiron tomorrow afternoon when the Normalites from River Falls will attempt to prove their superiority over the La Crosse squad. Both teams are in the pink of condition and will doubtless put up an excellent exhibition of football. Several changes have been made to present the strongest possible line-up for tomorrow's battle and the La Crosse rooters are confident of a victory.

HEALTH REPORT IS ENCOURAGING

Thirty-eight Deaths and Forty-nine Births in the City During the Last Month

CHILDREN ARE EXAMINED

But Little Disease of Contagious Character Prevalent in La Crosse

Dr. J. M. Furstman's monthly report shows that the city of La Crosse is enjoying a good condition of health for this period of the year, the report showing that, although there are twenty cases classified under the head of contagious diseases, there were but three cases of scarlet fever and seven of diphtheria.

A gain is shown in the vital statistics, for while there were thirty-eight deaths there were forty-nine births, a gain of eleven.

A large amount of work was done in the schools, the department examining 217 children for physical defects, as a result of which it was shown that eighty-five of this number were in need of medical attention. Three cases of diphtheria were discovered in one class and the throats of twenty-eight of this class were examined for suspicious cases. Twelve children who were at home with sore throats were looked up.

Dr. Furstman inspected fifteen dairies in the country and he reports that good sanitary conditions existed in the majority of them and that most of that number were making improvements in the barns. Out of twenty-seven samples of milk and cream collected but one was found which was below grade.

Following is the detailed report for October:

Contagious Diseases Reported
Scarlet fever 3; diphtheria 7; typhoid fever 3; tuberculosis 4; measles 2; mumps 1. Total 20.
Bacteriological Examinations
Diphtheria, positive 7, negative 13. Total 20. Sputums, positive 2, negative 2. Total 4. Widal's, positive 4, negative 6. Total 10. Miscellaneous, bacteriological examinations of urine 1, microscopic examinations of urine 1. Total 26.

Medical Inspection of Schools
School children examined for physical defects 217; needing medical attention, 85; three cases of diphtheria taken out of one class; throats of entire class examined for suspicious cases. Total number 28. Children looked up that were home from school with sore throat, 12.

Milk and Sanitary Inspections
Samples of milk and cream collected 27; below grade samples 1; prosecutions for below grade samples, 1; stores selling milk inspected, 12; dairies inspected in the country, 15; cow barns inspected in the city, 15; meat markets inspected, 5; confectionary stores inspected, 2; restaurants inspected, 2; complaints received, 65; complaints answered, 58; written notices sent to cow owners, 7; written notices sent to restaurants, 2; written notices sent to connect sewers, 5; vaults inspected, 28; vaults condemned, 9 verbal notices to protect fruits, 3; homes quarantined, 10; homes fumigated, 9; total number rooms fumigated, 13; total cubic feet, 16,886; amount of formaldehyde consumed, 7.5 pounds; total cost of fumigation, \$1.38.

Vital Statistics
Deaths, male 25; female 13. Total 38. Births, male 26; female 23. Total 49; marriages 38; accidents recorded 5; total number burial permits issued 39; bodies shipped out 9; bodies shipped in 1; supplemental blanks mailed for birth certificates 130; certificates 124; duplicate certificates register of deaths 124.

COMMITTEE MAY REACH AGREEMENT

Members of both factions of the board of equalization today expressed themselves as being confident that an agreement would be reached in the matter of adopting a report of the valuation of taxable property in La Crosse county, and asserted that they thought that but one report would be submitted to the county board.

Supervisor Keppel of the rural faction, after asserting that an agreement would probably be reached, declared that he could not say which of the three reports would be accepted. Supervisor Jos. Giefer of the city faction also declared that an agreement is probable.

Supervisor Kindley, who has been leading the city faction, however declared that he would not sacrifice his convictions for the sake of reaching an agreement, and that he feels that to accept the state report or Mr. Keizer's report would be doing the county an injustice, as it would result unfavorable to the county to accept the state figures at par. He also declared that he thought the average of the two reports would not prove satisfactory.

SAVAGE THREATS AGAINST WHITES

Chinese Rebel Leaders May Not Be Able to Prevent a Terrible Massacre

DISCRIMINATION IS CHARGED

Europeans and Americans Said to Be Showing Partiality Toward the Imperialists

PEKIN, Nov. 10.—Ball cartridges were issued today to the legation guards in anticipation of an anti-foreign outbreak. A similar uprising is also feared at Tien Tsin. Operations of the Pekin-Kalgan-Road have been abandoned, which cuts off the only avenue of escape by the imperial family. Taoti Chang of Amoy has resigned and most of his subordinate officials have fled. Attempts are constantly being made by the rebels to burn the city.

SHANGHAI, Nov. 10.—Despite all efforts to prevent it, an anti-foreign sentiment began distinctly to manifest itself among the Chinese rebels today. Mutterings are heard on every hand that American and European residents of the treaty ports are showing partiality for the imperialists, and savage threats are being made of the vengeance the revolutionists will exact if the aliens do not observe the strictest neutrality throughout the present struggle.

At Tien Tsin the situation is especially strained. The consular body's insistence that General Chang Shao-Tsen's force remain outside instead of occupying the city, as a preliminary to an advance upon Pekin, is extremely provoking to the rebels.

The consul's objection that the entrance of the Lan Chow troops into the city would almost certainly lead to fighting between them and the Manchus soldiers there would be better received by the rebels were there not pretty clear evidence of the truth of their charge that while General Chang's followers are discriminated against, the admission of government forces has been winked at in violation of the protocol of 1910 and that trains have been furnished by foreign railroad officials in compliance with the government's request, at the same time that similar requests from General Chang were being disregarded.

Even here, where in general the rebels have maintained excellent order since the city fell into their hands, the looting of the British warehouses from which the guard had been driven by a native mob, is regarded as having been a most alarming symptom of the revolutionary leaders weakening grip upon the masses of their followers.

The Manchus leaders in Pekin, it is beginning to be believed, have made up their minds that southern China is hopelessly lost to the throne, but to be planning for a last ditch fight in the north.

American Strong Figure

WASHINGTON, Nov. 10.—Americans in China are absolutely dependent upon Rear Admiral Murdock, U. S. N., commander of the Asiatic fleet, for the protection of their lives and property. The American naval officer has been given authority with the increasing seriousness of the situation, until now he is by all odds the strongest figure in China.

The navy department has informed him that he is expected to do all things necessary for the safe guarding of American interests. The department has provided Murdock with nearly a score of warships, which he can use as he pleases. He is free to land marines, bombard towns, seize vessels—he is both the state and navy departments in China during the critical days.

FUNERAL THURSDAY

The funeral of the twin daughter of Mr. and Mrs. Carl Loveday, Third and Winnebago streets, who died last yesterday afternoon, was held at 2:30 this afternoon.

HUNTERS SEEK DEER; SEASON OPEN TODAY

MADISON, Wis., Nov. 10.—The official 1911 deer hunting season in thirty-eight of seventy-one counties in Wisconsin opened today at sunrise.
Hunters from all parts of the state were reported flocking to the northern woods, where deer are said to be plentiful. Over 100,000 licenses to hunt have been issued by State Game Warden Scholtz, who estimates the number of deer slaughtered between now and November 30 will be at least 6,000.
During the 1910 season 86 hunters were killed and the state officials can determine no reason why the mortality list will be decreased during the present season, although every precaution has been taken in the matter of warning to inexperienced sportsmen.

SOCIETY TURNOUT AT CHARITY BALL

Annual Turnout of the Elite to Take Place at the Germania Hall This Evening

DECORATIONS ARE BEAUTIFUL

And Concert and Dance Program Is the Result of Days of Careful Preparation

The elite of La Crosse society will whirl tonight in the mazy dance for the benefit of the free ward for the aid of the poor in the La Crosse hospital. The sale of tickets so far has been exceedingly gratifying to the members of the committee in charge of the affair, and the Charity ball of 1911 promises to be not only a success socially but financially as well.

The decorating of the hall was completed this afternoon by the committee consisting of Mrs. E. R. Burke, Mrs. A. U. Jorris, Miss Louise Gund, Miss Doerflinger, Miss Eleanor Marston, Miss Margaret Crosby, Miss Heald and Miss Ruth Colman, and the effect is more striking and unique than has been attained in former years.

The concert which will precede the start of the grand march, will open at 8 o'clock. Promptly at 9 o'clock, Robert D. Gordon will lead Miss Louise Gund upon the floor, and the grand march will be on. An estimate of the attendance could not be secured today, but the expectations of the committee in charge is that the number will rival if not outstrip that of any previous year.

As is to be expected of the big social event of the year, the Charity Ball this evening will be replete with wonderful gowns. Several imported costumes, it has been learned, will be exhibited to the public gaze this evening, and the local modistes have been working frantically for weeks turning out creations with which to deck the cream of La Crosse wealth and beauty this evening.

All arrangements have been completed, and nothing now remains to be done except to throw open the doors of the big hall and start the music. If you have so far forgotten to buy your ticket, it can be purchased at Hebbard's drug store, or at the door of Germania hall.

MRS. MARY BRADFORD CHOSEN BY TEACHERS

MILWAUKEE, Wis., Nov. 10.—In accord with constitutional rule, President L. S. Keeley of the Wisconsin Teachers' association today officially announced that Mrs. Mary D. Bradford, superintendent of the Kenosha, Wis., schools, had been elected president of the association for the coming year, and Prof. M. V. O'Shea of the university of Wisconsin, elected member of the executive committee for a term of four years to succeed himself.

The primary election late yesterday resulted in a clear majority for these candidates and further voting is unnecessary.

Booker T. Washington, the Tuskegee educator, told the 5,000 of his early struggles in the fight to educate the southern negro, in an address last night.

WEATHER

For La Crosse and vicinity: Generally fair tonight and Saturday; much colder tonight.

For Wisconsin: Generally fair tonight and Saturday; much colder tonight with cold wave northeast portion; colder southeast portion Saturday.

For Iowa: Unsettled with probably snow tonight or Saturday; much colder east portion tonight.

Weather Notes
A narrow area of high pressure extends from British Columbia to the lower Missouri valley and areas of low pressure are central north of Lake Superior and over the plateau region. Rain has been quite general from the Mississippi valley to the Atlantic states this morning. Snow has occurred in the Dakotas, Montana and the Canadian northwest and rain and snow in the Pacific states. It is colder from the north Pacific coast to western Wisconsin and Iowa and temperatures ranging from zero to 20 degrees below are reported from North Dakota, western South Dakota, Montana and throughout the Canadian northwest; it is warmer from the lake region to the west gulf states.

It will be generally fair in this section tonight and Saturday and much colder tonight.

Stations.	River Flood.	24-Hour Stage. Height. Change.
St. Paul	1.4	1.6 -0.1
Red Wing	1.4	1.9 -0.1
Reeds Landing	1.2	2.0 -0.1

Over a hundred fine lawn waists, that are slightly soiled. These waists sold at \$1.50 and more; to close out quickly, Saturday at **69c**

KOMISS-ROBERTSON CO.

LADIES' AND MISSES' FURNISHERS

CIGAR TRUST IS LEFT UNIMPAIRED

Brandeis, "People's Lawyer," Points Need of Amending the Sherman Law

UNITED CIGAR STORES HIT

Says Tobacco Trust Dissolution Plan Leaves Combine Free to Crush Competition

BOSTON, Nov. 10.—Declaring that the decision rendered yesterday by the circuit court of appeals in New York, approving of the plan submitted by the Tobacco trust for the disintegration of the monopoly is the last proof of the public needs of absolute necessity for amending the Sherman anti-trust law, Louis D. Brandeis, the "People's Lawyer," has pointed out for the United Press the reasons for his assertion.

Brandeis declared the plan approved leaves unimpaired the power of the United Cigar Stores, the "most potent instrument of the trust for effecting monopoly and crushing competition." Brandeis' statement follows: "The decision rendered in New York by the judges of the circuit court of appeals approving substantially of the plan submitted by the Tobacco company for the so-called disintegration of the trust will doubtless remove the last vestige of doubt which the public may have felt as to the necessity of supplementing the Sherman anti-trust law."

"The decision leaves the individual defendants who have heretofore dominated the tobacco business and ruthlessly crushed competition, in substantially the same control of the trade as that which the supreme court declared to be illegal. The important companies which are to continue the business, of which one is to have \$118,000,000 in assets and over \$14,000,000 in net earnings, are to be owned by substantially the same stockholders, in substantially the same proportions as the present trust."

"The United Cigar Stores company, the most potent instrument of the trust for effecting monopoly and crushing competition, is left unimpaired in the same controlling position. The monopoly of the licorice root, through which the plug tobacco business is controlled, is left unbroken."

"Apparently the court deemed itself powerless under the Sherman law and the decisions of the supreme court, to prevent a situation so utterly at variance with the demands of the people that competition shall be preserved."

"The decision is a timely object lesson of the wisdom of the La Follette anti-trust bill, which seeks to remove uncertainties in the application of the law, to make its enforcement easier, and its remedies adequate."

CLAN Buries HATCHET
GLASCOW, Nov. 10.—The Clan MacDonald has buried the hatchet. After 300 years of strife among the three factions of the clan, their leaders have signed a treaty of peace. The chief of Glengarry, the chief of Sleat and the chief of Clan Ronald were brought together by Sir Alexander MacDonald at a meeting of the general clan. Each had strenuously contended for the honors of supreme chieftainship. Sir Alexander proposed the simple expedient of tossing a coin. This was accepted, with the proviso that the coin be tossed on each occasion when there should be a clash as to precedence, the winner to be the chieftain for that particular day.

Clean floors and doors with GOLD DUST

Add a little Gold Dust to your scrubbing water, and you can clean your floors, doors and woodwork in a jiffy. Gold Dust is such a superior cleanser that it does the hardest part of the work, and requires little scrubbing. It does the work; you simply aid it.

Gold Dust will do the work better than soap or any other cleanser, making your woodwork look like new.

For cleaning anything and everything about the house nothing is so quickly effective as Gold Dust. It's the cleaning marvel of the age!

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

"Let the GOLD DUST TWINS do your work!"

WISCONSIN STOCK MEN WIN RIBBONS

MADISON, Wis., Nov. 10.—(Special.)—Wisconsin livestock breeders were prominent exhibitors and successful competitors for awards in the National Dairy show at Chicago last week.

In the Brown-Swiss cattle competition, H. W. Ayres, Honey Creek, Wis., took ten first premiums, six second premiums, eight third premiums, two fourth premiums, and five premium cups for as many bulls, cows and heifers. J. P. Allen, Delavan, Wis., took five first premiums, seven second premiums, four third premiums, seven fourth premiums, and two premiums for champions. Awards for prize Guernseys were made to W. M. Jones, Waukesha, Wis.; John H. Williams, Waukesha, Wis.; W. S. Dixon, Brandon, Wis.; and M. H. Tichenor, Oconomowoc, Wis. Awards for Jerseys were made to Edward Bruns, Fairwater, Wis.; and Mrs. Adda F. Howie, Elm Grove, Wis. Exhibitors of Holsteins included F. M. Ames, Brooklyn, Wis.; Milan W. Demuth, Lake Mills, Wis.; Royal Klotz, Racine, Wis.; and A. L. Williams, Fond du Lac, Wis. Williams took one first premium, two thirds and one fifth.

Among the exhibitors of Guernseys not noted above were Charles L. Hill, president of the state board of agriculture, Rosedale, Wis., and Albert Fortz, Waukesha, Wis.

The star actor only has a part, but he is apt to consider himself the whole show. A minister can't win the poor by courting the rich.

WHIZ PAINTERS
"WHIZ" removes paint in a jiffy, leaves hands soft and smooth. Premium coupon in can. All dealers, 10c.

DESERT TOWN LOSES WATER IN STRIKE

TUSCON, Nev., Nov. 10.—The Southern Pacific railroad is cutting off the water supply formerly furnished free to families at Gila Bend, Ariz., as a measure of retaliation against strikers of the system federation, was the word received here today from strike leaders. W. R. Stuart wired that Round House Foreman Algood and Traveling Engineer Moore, at Gila Bend, had forbidden public distribution of water from the water car maintained by the company. Superintendent Dyer declared to-

day that it "wasn't necessary to offer apologies for this action." "It is taken," he said, "against men who are working day and night against this company. They left faucets open, wasting water for engines. That is the basis of the railroad's decision not to let them have water hereafter." Gila Bend is a sandy waste.

STATE AWARDS CONTRACTS

MADISON, Wis., Nov. 10.—The state board of control awarded the following contracts: Rewiring of the Northern hospital at Winnebago, Langstad-Meyer Construction Co., Appleton, \$6,500; fixtures, Charles

Polacheck & Brother, Milwaukee, \$2,260.75; switchboard, state public school at Sparta, George F. Rohn, Milwaukee, \$427; electrical equipment at Sparta school, Fort Wayne Electrical works, Madison, \$179.56.

JAP TO BE SCRIBE

MADISON, Wis., Nov. 10.—Yekizo, a Japanese student who graduated from Waseda university in Japan in 1903, has enrolled in the course in journalism at the university of Wisconsin. There are a Hindu and an American also enrolled in the course. A Chinese student has entered the class in agricultural journalism and is preparing for magazine work in his native country.

IS PLUMBER OF BIG EXPERIENCE

J. F. Lapitz Has Been in the Trade in La Crosse for Twenty-five Years; Started at 16

J. F. Lapitz, plumber, whose establishment is located at 131 South Sixth street, is a practical plumber whose experience in his line of work has been all gained at first hand. He has been connected with the business of laying pipes and installing heating apparatus for over twenty-five years.

The first experience which Mr. Lapitz gained as a plumber was in the shop of Trane and Green. He entered their employ as an apprentice in 1886 at the age of sixteen, and remained with them for five years.

Following his five years of work for the Trane and Green company, Mr. Lapitz entered the field as a master plumber himself. In 1893, with H. S. Thill, he bought out a small plumbing shop on Main street. From the first the new firm prospered, and within a few years they moved the headquarters of their business to a new and modern building opposite the city hall. The firm lasted fifteen years.

In February, 1909, the firm of Thill and Lapitz broke up partnership, Mr. Lapitz selling his interest in the establishment, and starting in business for himself at his present location.

The reputation he had gained in his previous connection with the firm of which he was part owner was responsible for bringing him a great deal of business from the first. His force gradually increased, and at the present time he is employing seven expert plumbers to take care of the work which pours in upon him.

Plumbing, heating, and contracting for laying sewers and water systems are the lines to which he devotes his energies. The first contract which he obtained after going into business on his own hook was a contract for sewers on the north and south sides of the city. He has also laid sewer and water pipes in cities outside of La Crosse. His reputation is known in this section of the country, and a great portion of his work, nearly as much as is done in the city, comes from the surrounding country. Last winter he installed a large heating plant in an office building in Lakota, N. D.

PRODUCES TEACHERS

MADISON, Wis., Nov. 10.—Nearly 400 graduates and students of the university of Wisconsin enrolled with the committee on appointments this year, have secured teaching positions in all parts of the country.

A total of 385 persons were secured of which 270 were filled by women and 115 by men. Six city school superintendents were placed and 38 principals were secured. One preceptress of a woman's college was placed.

Thirty-one graduates, mostly men, secured places on the faculties of colleges and universities from Pittsburgh to California. Ten instructors were placed in private schools and three graduates were sent to fill positions abroad. Two of the foreign positions were in Rome, Italy, and one was in Korea.

The trouble with an easy going chap is that he seldom knows when to stop.

A pessimist seldom hopes for the best for fear the unexpected will happen.

'Time's Flight Turned Backward'
SAGE AND SULPHUR
Made Her Look Twenty Years Younger

READ MRS. HERRICK'S SWORN STATEMENT

STATE OF NEW YORK } ss
COUNTY OF MONROE }

ROCHESTER, N. Y.

Nancy A. Herrick, being duly sworn, deposes and says: When I was a girl, I had a head of heavy, long, dark brown hair which was the envy of my schoolmates, and which attracted the attention and remarks of strangers. As I grew older, my hair commenced to come out, just a little at first, but gradually more and more, and then began to turn gray. I was induced by the many good reports I had heard of Wyeth's Sage and Sulphur Hair Remedy to try a bottle. My hair was quite thin and gray when I began using Sage and Sulphur, and you can imagine my satisfaction when I found that it was fast coming back to its natural condition, being thicker, darker and more glossy than it had been for a long time. I continued to use Sage and Sulphur, and my hair is now as heavy, dark and smooth as when I was a girl of sixteen. It is now four years since I commenced using Sage and Sulphur, and my hair is still in splendid condition.

Sworn to before me this 14th day of July, 1911.

Henry W. Hall

ELECTION PLAINLY A PROGRESSIVE VICTORY

Careful and unprejudiced analy-
sis of Tuesday's election returns sug-
gests the claims of the democrats
that the result is favorable to them,
but its real indication is not that it
constitutes victory for one of the
old parties and defeat of the other.
The real significance of the ballot-
ing is that party lines played little
part and that progressive tickets and
progressive principles, whether styl-
ed republican or democratic, were
endorsed.

As affecting President Taft, the
returns are decidedly discouraging.
Massachusetts, overwhelmingly re-
publican, elected a democratic gov-
ernor with Taft the issue of the
republicans' own choosing; Cincin-
nati, the president's home city, over-
whelmingly defeated a republican
ticket which had the specific and
enthusiastic endorsement of the
President. New Mexico, the republi-
can ticket of which was selected by
Taft with the promise to Taft
that he would "deliver the state to
him," was carried by a combination
of progressive republicans and dem-
ocrats upon an issue directly at-
tacking Taft through the instrumen-
tality of the constitution which he
was active in forcing upon the state.
An amendment to make this consti-
tution easily amendable was over-
whelmingly carried.

To offset this there is the repub-
lican victory in Maryland which gives

no promise that that state will be
in the republican column in the
presidential election, and the defeat
of Woodrow Wilson's ticket in New
Jersey. These are frail foundations
upon which to build a presidential
hope.

But all these victories, whether
styled democratic or republican,
were progressive. The Massachusetts
and New Mexico victories were pro-
gressive; the defeat of Tammany
was progressive; the victory in Cin-
cinnati, Cleveland and Toledo was
progressive.

And on top of these there are the
elections of nearly a dozen social-
istic mayors throughout the coun-
try, trending towards the progres-
sives rather than towards the stand-
patters.

These things seal the doom of
President Taft's political ambitions.

POLICE ENTITLED TO DAY IN COURT

There will be no disposition on the
part of citizens to prejudice the po-
lice department, concerning which
graff gossip and rumor are preva-
lent. It is right to presume that all
the members of the department are
innocent until convincing evidence
of guilt is produced.

On the other hand, it is incum-
bent upon the authorities, now that
the graft talk has been promulgat-
ed, to go at once to the very bot-
tom of the matter, to prove the ac-
tual facts, and to act accordingly.

While it is unpleasant to contem-
plate the possibility of crookedness
among our very likable police of-
ficers, such things as police graft
are pretty well known in many cit-
ies throughout the country and are
therefore possible here. The police
are entitled to an opportunity to
vindicate themselves, and the public
has a right to know that its busi-
ness is being honestly done.

Mayor Dengler's suggestion that
the investigation be in the form of
a public hearing is indeed wise, as
an acquittal in private would be
hailed as a whitewash. The broad-
est daylight publicity is essential in
order that the rights of both the
public and the police may be pro-
tected and the entire unpleasantness
finally eliminated.

SERIOUS MINDED WRIGHTS GO ON

The status of the Wrights has
been established.

In the dispute regarding alleged
infringement of the Wrights' pat-
ents by Glen Curtiss and other build-
ers of aeroplanes, the impression
may have been given that there ex-
ists some question as to the origi-
nality of their ideas, although the
courts have quite uniformly recog-
nized the priority of their claims.

But in the invention of the "glid-
er" we have that which distinguishes
between the Wrights and all other
aerialists.

The Doom of the Turk
Now the turkey's days are number-
ed, and he won't have long to
wait.
For the proclamation's issued fixing
our Thanksgiving date.
At the end of this November there
will be a royal feast,
And we'll hear a cry for turkey
from the highest to the least.

There'll be pumpkin pie and fixin's
down each eager throat to toss.
There'll be many palate ticklers and
the tart cranberry sauce,
And there'll be a lot of dainties
some will feel inclined to shirk.
But not one of all the eaters will
decline a slice of turkey.

There'll be children, mothers, fa-
thers, brothers, sisters, uncles,
aunts,
With the turkey on the table as the
object that enchants,
And if they are still as hungry as
on feasting days before
They'll not stop at one good serv-
ing, but will pass their plates
for more.

There'll be trouble for the carver,
though he tries to do his best,
When too many call for drumsticks
and too many want the breast;
There'll be frequent calls for "stuf-
fing" in the most persuasive
tones,
And before the feast is ended there
will be nothing left but bones.

So get ready, Mister Gobbler, and
get ready, Mistress Hen,
For Thanksgiving day is coming,
and you'll see your finish then.
Now, at last, your days are num-
bered, and you won't have long
to wait,
At the end of this November you'll
be smoking on the plate.

—Theodore H. Boice, in Exchange

CHAPTER XXVII

The Judge and Mr. Mahaffy's
celebration of the former's rehabili-
tated credit had occupied the shank
of the evening, the small hours of
the night, and that part of the suc-
ceeding day with the southwest de-
scribed as soon in the morning; and
as the stone jug, in which were gar-
nered the spoils of the highly confi-
dential but entirely misleading con-
versation which the judge had held
with Mr. Pegloe after his return from
Belle Plain, lost in weight, it might
have been observed that he and Mr.
Mahaffy seemed to gain in that nice
sense of equity which should form
the basis of all human relations. The
judge watched Mr. Mahaffy, and Mr.
Mahaffy watched the judge, each
trustfully placing the regulation of
his private conduct in the hands of
his friend, as the one most likely to
be affected by the rectitude of his
acts.

Probably so extensive a consump-
tion of Mr. Pegloe's corn whiskey had
never been accomplished with greater
high-mindedness. They honorably
split the last glass, the judge scorn-
ing to set up any technical claim to
it as his exclusive property; then he
stared at Mahaffy, while Mahaffy,
dark-visaged and forbidding, stared
back at him.

The judge sighed deeply. He took
up the jug and inverted it. A stray
drop or so fell languidly into his
glass.

"Try squeezing it, Price," said
Mahaffy.

The judge shook the jug, it gave
forth an empty sound, and he sigh-
ed again; he attempted to peer in-
to it, closing one watery eye as he
tilted it toward the light.

"I wonder no Yankee has ever
thought to invent a jug with a glass
bottom," he observed.

"What for?" asked Mahaffy.

"You astonish me, Solomon," ex-
claimed the judge. "Coming as you
do from that section which invented
the wooden nutmeg, and an eight-
day clock that has been known to
run as much as four or five hours
at a stretch. I am aware the Yan-
kees are an ingenious people; I
wonder none of 'em ever thought of
a jug with a glass bottom, so that
when a body holds it up to the light
he can see at a glance whether it
is empty or not. Do you reckon
Pegloe has sufficient confidence to
fill the jug again for us?"

But Mahaffy's expression indicat-
ed no great confidence in Mr. Peg-
loe's confidence.

"Credit," began the judge, "is
proverbially shy; still it may some-
times be increased, like the muscles
of the body and the mental faculties,
by judicious use. I've always regard-
ed Pegloe as a cheap mind. I hope
I have done him an injustice. I
put on his hat, and tucking the jug
under his arm went from the house.
Ten or fifteen minutes elapsed.
Mahaffy considered this a good sign;
it didn't take long to say no, he re-
flected. Another ten or fifteen elap-
sed. Mahaffy lost heart. Then there
came a hasty step beyond the door,
it was thrown violently open, and
the judge precipitated himself into
the room. A glance showed Mahaffy
that he was laboring under intense
excitement.

"Solomon, I braing shocking news.
God knows what the next few hours
may reveal!" cried the judge, mop-
ping his brow. "Miss Malroy has
disappeared from Belle Plain, and
Hannibal has gone with her!"

"Where have they gone?" asked
Mahaffy, and his long jaw dropped.

"Would to God I had an answer
ready for that question, Solomon!"
answered the judge, with a melan-
choly shake of the head. He gazed
down on his friends with an air of
large tolerance. "I am going to Belle
Plain, but you are too drunk. Sleep
it off, Solomon, and join me when
your brain is clear and your legs
steady."

Mahaffy jerked out an oath, and
lifting himself off his chair, stood
erect. He snatched up his hat.

"Stuff your pistols into your pock-

"That's all right, but you don't
answer my question," persisted Slo-
sson, with admirable tenacity of pur-
pose.

"What is your question, Joe?"

"A lot can happen between this
and midnight—"

"If things go wrong with us there-
'll be a blaze at the head of the ba-
yon; does that satisfy you?"

"And what then?"

Murrell hesitated.

"What about the girl?" insisted
Slosson, dragging him back to the
point at issue between them. "As a
man I wouldn't lift my hand ag'in
no good looking woman except, like
I said, in kindness; but she can't
be turned loose; she knows too
much. What's the word, Captain—
you say it!" he urged. He made a
gesture of appeal to Ware.

"Look for the light; better still,
look for the man I'll send." And
with this Murrell would have turned
away, but Slosson detained him.

"Who'll he be?"

"Some fellow who knows, the riv-
er."

"And if it's the light?" asked the
tavern-keeper in a hoarse undertone.

Again he looked toward Ware, who,
dry-lipped and ashen, was regard-
ing steadfastly. Glance met glance,
for a brief instant they looked into
each other's eyes and then the hand
Slosson had rested on Murrell's
shoulder dropped at his side.

CHAPTER XXVII

The Judge and Mr. Mahaffy's
celebration of the former's rehabili-
tated credit had occupied the shank
of the evening, the small hours of
the night, and that part of the suc-
ceeding day with the southwest de-

Ten or fifteen minutes elapsed.
Mahaffy considered this a good sign;
it didn't take long to say no, he re-
flected. Another ten or fifteen elap-
sed. Mahaffy lost heart. Then there
came a hasty step beyond the door,
it was thrown violently open, and
the judge precipitated himself into
the room. A glance showed Mahaffy
that he was laboring under intense
excitement.

"Solomon, I braing shocking news.
God knows what the next few hours
may reveal!" cried the judge, mop-
ping his brow. "Miss Malroy has
disappeared from Belle Plain, and
Hannibal has gone with her!"

"Where have they gone?" asked
Mahaffy, and his long jaw dropped.

"Would to God I had an answer
ready for that question, Solomon!"
answered the judge, with a melan-
choly shake of the head. He gazed
down on his friends with an air of
large tolerance. "I am going to Belle
Plain, but you are too drunk. Sleep
it off, Solomon, and join me when
your brain is clear and your legs
steady."

Mahaffy jerked out an oath, and
lifting himself off his chair, stood
erect. He snatched up his hat.

"Stuff your pistols into your pock-

ets, and come on, Price!" he said,
and stalked toward the door.

He flitted up the street, and the
judge puffed and panted in his wake.
They gained the edge of the village
without speech.

"There is mystery and rascality
here!" said the judge.

"What do you know, Price, and
where did you hear this?" Mahaffy
shot the question back over his
shoulder.

"At Pegloe's; the Belle Plain over-
seer had just fetched the news in-
to town."

Again they were silent, all their
energies being absorbed by the phys-
ical exertion they were making. The
road danced before their burning
eyes, it seemed to be uncoiling itself
serpentine with hideous undula-
tions. Mr. Mahaffy was conscious
that the judge, of whom he caught
a blurred vision now at his right
side, now at his left, was laboring
painfully in the heat and dust, the
breath whistling from between his
parched lips.

"You're just ripe for apoplexy,
Price!" he snarled, moderating his
pace.

"Go on," said the judge, with
stolid resolution.

Two miles out of the village they
came to a roadside spring; here they
paused for an instant. Mahaffy scooped
up handfuls of the clear water and
sucked it down greedily. The
judge dropped on his stomach and
buried his face in the tiny pool,
gulping up great thirsty swallows.

After a long breathless instant he
stood erect, with drops of moisture
clinging to his nose and eyebrows.
Mahaffy was a dozen paces down the
road, hurrying forward again with
relentless vigor. The judge shuf-
fled after him. The tracks they left
in the dust crossed and re-crossed
the road, but presently the slanting
lines of their advance straightened,
the judge gained and held a fixed
place at Mahaffy's right, a step or
so in the rear. His opulent fancy
began to deal with the situation.

"If anything happens to the child,
the man responsible for it would bet-
ter never be born—I'll pursue him
with undiminished energy from this
moment forth!" he panted.

"What could happen to him,
Price?" asked Mahaffy.

"God knows, poor little lad!"

"Will you shut up!" cried Ma-
haffy savagely.

"Solomon!"

"Why do you go building on that
idea? Why should any one harm him
—what earthly purpose—"

"I tell you, Solomon, we are the
pivotal point in a vast circle of
crime. This is a blow at me—this
is revenge, sir, neither more nor
less! They have struck at me
through the boy, it is as plain as
day."

"What did the overseer say?"

Columbus took cocoa from America to the Old World. The Van Houtens of Holland sent it back in its most delicious and economical form—a form that is fundamentally different from all imitations—and far more savory—tempting—economical. For twenty-five cents your grocer will sell you a can—today—that is twice as strong as ordinary cocoa, and will go more than twice as far.

PRAIRIE DU CHIEN.

Mr. and Mrs. Wilkinson of the First ward celebrated their golden wedding at the home in lower town on Wednesday, November 8, by a gathering of their children and grandchildren and other relatives. A bountiful dinner was served and several hours of social enjoyment followed. Mrs. Edward McCloskey of this city and Mrs. Julius Boeckh of Lansing are daughters of Mr. and Mrs. Wilkinson.

The water tank at the C. B. & Q. yards collapsed from over pressure on Wednesday, and trains on that line can take no water here until it is repaired which will be several days.

E. C. Alder, president of the village of Eastman, who has been taking medical treatment at the Prairie du Chien sanitarium, returned to his home Thursday.

The annual bazaar at St. Mary's Academy will be held as usual during Thanksgiving week, the dates this year being November 28 to December 1, inclusive.

Mr. and Mrs. Lambert Gronier are in Oshkosh to attend the wedding of Mrs. Gronier's sister, Mrs. Humphrey, who visited here during the past summer.

ATTEND THE DANCE

AT
PRIMROSE HALL
SATURDAY
EVENING
NOV. 11TH
GOOD MUSIC
P. W. SCHLEITER, PROP.

On their return they will be accompanied by Mr. Gronier's mother and sister, who will spend the winter here.

Miss Lelah Ryder is visiting relatives and friends in La Crosse.

Miss Jennie Weisenberger is employed in the Garvey Dry Goods store.

Miss Edna Simonton of La Crosse is spending a few days in the city. Mrs. Waldorf of Madison is visiting at the home of her daughter, Mrs. Ed Poss.

Miss Helen Lawless has accepted a position with the Prairie du Chien Courier.

Mr. and Mrs. Julius Boeckh of Lansing are here from Lansing visiting relatives and friends.

Joe Marvin of the First ward and Mrs. Dohse were married Monday morning at St. John's Catholic church, Rev. Fr. Bilek officiating.

Miss Mayme Nugent is visiting her sister, Mrs. T. E. Farrell at Seneca. Ex-Sheriff Tibert Jones has moved his family to the Regan residence in lower town.

Mrs. C. F. Smith has returned from a two weeks' visit at her old home in Bloomington.

Chris Garvey has gone to Balentine, Mont., where he has a position as cashier in a bank.

F. S. Clinton was called to Stoddard to take charge of the bank there for a few days. Cashier K. O. Johnson having been summoned to his home near Soldiers Grove by the critical illness of his mother.

Alexander Athey transacted legal business at Lancaster this week.

PROBE TO BE RESUMED

WASHINGTON, Nov. 10.—The congressional investigation of the steel trust will be resumed and continued regardless of the government's dissolution suit, filed recently at Trenton. Chairman Stanley of the steel committee, returned to Washington yesterday from Kentucky and immediately issued a call for a meeting of the committee on Nov. 20.

While we are not always early to bed, an eclipse of the moon isn't what is keeping us up. Many a rich girl's face is her misfortune.

SAFEGUARD LIFE OR KILL SPORT

Head Game Warden Charges Hunters to Avoid Accidents in Northern Woods

LAYS DOWN RULES FOR WOODS

Tips which, if Followed, Will Result in Cutting Death List, Given Out at Madison

In a letter to Deputy Wisconsin Game Warden Ed Gautsch, La Crosse Chief Game Warden John A. Sholts, urges that hunters this year exert every precaution in the pursuit of deer.

The letter is in reality a warning to hunters and the head game warden predicts that unless the number of fatal accidents is cut down there is a strong possibility of a law prohibiting deer hunting in this state.

His letter follows: "Just a word—and I wish I could burn it into the minds of every hunter of Wisconsin—Caution. No hunter can afford to be careless. Every move to become a successful hunter, should be a very cautious hunter, should be a very cautious hunter to so conduct himself that there can be but slight danger of his injuring himself or others by the careless handling of his own gun.

"The fact that so many accidents annually occur is due to careless hunters while climbing upon logs or stumps or crawling through wind falls or into boats or wagons, etc. There may be some excuses for accidents that do happen, but there can be no excuse for any man who will shoot at any object until he knows for certainty that the object at which he aims is not another man. "Do not shoot into a thicket if you have reason to think that a man is in there or has passed out of the sight in the thicket.

Unload Gun

"Do not enter your cabin with a loaded gun and always load your magazine outside your cabin, and using great caution in doing so.

"Always hold the muzzle of your gun close to the ground when loading or unloading, and be sure there is no person in front of you when loading or unloading your magazine.

"Look out and be very careful if you are trailing behind your comrade and especially so if the ground is rough or if you are going through bushes.

"Do not rush toward your game when it has fallen or has been wounded. Many a good man has lost his life by rushing up to a deer that has been killed and in the excitement, by the careless handling of the gun, he has shot his best friend.

"A common error is made where a party of three or more have dressed their deer and started for camp with it, and at the time the hunters carry their guns loaded. This should never be done. Always take the shell out of the barrel of every gun and keep them out until your deer is hung up at camp.

"I trust no man will take exception to these few words of caution offered by me, but had every member heard the earnest appeals made by

Children's Hats, beautifully trimmed, reduced to **\$1.50**

members of the legislature last winter in trying to put a stop to hunting of deer for the reason that so many men were shot during the hunting season, they would readily understand why these lines have been written.

"Notice what I am telling you. I do not stop shooting so many men, there will be a law preventing the hunting of deer in Wisconsin. There was a strong feeling toward passing such a law last winter. Let every man try to avoid accidents.

"Most sincerely yours,

"JOHN A. SHOLTS."

VIROQUA, WIS.

Ray Brye, buttermaker and manager of the Readstown creamery, was the first winner among seven hundred on hand separated butter at the National Dairy show held in Chicago. His score, on a twenty pound tub of butter manufactured at the Readstown creamery, was 97 1-3, out of a possible 100. Mr. Brye, who was a former Viroqua resident, stopped here enroute home from the dairy show.

Mrs. Sabina Bosshard of Bangor arrived to spend the winter with her brother, August Smith.

Mrs. C. Stunkard of Towerville was in the city on business.

Jos. Hayes of La Farge was over on business.

Chas. S. Slack left for Alabama on business.

Elmer Frank and family have moved into the house vacated by Wilbur Pierce.

Miss Christena Thompson is a guest of her sister at La Farge.

Mrs. Arthur Fisher of Prairie du Chien is a guest of her cousin, Mrs. R. H. Drake.

Dr. R. W. Baldwin has purchased from Mrs. Nichols, a fine residence lot fronting east. He will probably build a modern home there.

Otto Bosshard of La Crosse was here on business.

Rachael Sveum of Newry, who recently celebrated her ninety-seventh birthday, reads without the aid of glasses, and is in perfect health.

F. P. McIntosh and family were summoned to Edgerton on account of the death of his father.

Mr. and Mrs. Frank Primmer have gone to Sioux City, Iowa, for a visit with their son Roy.

L. C. Finstad and family have moved into the Oftedahl house.

Mrs. W. D. Dyson and Mrs. H. P. Proctor entertained at 500.

Miss May McKittrick has returned from Cleveland, Ohio, on account of illness.

P. S. Curtis has received a temporary appointment as game warden and left for northern Wisconsin.

"CIRCUS TRUST" IS PLANNING CHANGES

MADISON, Wis., Nov. 10.—(Special.)—News of important changes in the management of the shows comprising the "Circus Trust" comes from the circus center, Baraboo, near here. The Forepaugh & Sells show, owned by the Ringlings & Sells show, existence as such, and during the winter season will be divided up among the Gollmar Brothers and smaller shows controlled by the Ringlings. In the future the Gollmar show will be classed as one of the Big Three, the others being the Ringling and the Barnum & Bailey shows. Gollmar's, which went into winter quarters last week, will be greatly enlarged and will exhibit only in larger cities. This season is said to have been the most profitable for the Ringlings since the famous quintet started out with wagons a generation ago. The Ringling show returned to Baraboo yesterday from the west, and the Barnum & Bailey show is still touring the south.

Tarkington Copy Worth \$10,000
INDIANAPOLIS—A Booth Tarkington manuscript valued at \$10,000 is on file today in the Marion county court. The manuscript is George W. Weiseman's damage suit against the author, who, he says hit him with an automobile.

AVIATOR RODGERS SPURNS HEARST CUP

LOS ANGELES, Cal., Nov. 10.—Indignantly spurning a \$500 loving cup proffered to him by William R. Hearst for flying the American continent, instead of the \$50,000 cash prize offered to the first airman completing the trip in thirty days, Aviator Calbraith P. Rodgers today issued a statement denouncing Hearst.

"I can offer a million dollars to the first man shot from a cannon from here to New York between today and next Christmas," he said, "and be dead sure the money will not be taken. That's the way some of these people putting up big aviation prizes are hedging them with impossible conditions."

Rodgers declined absolutely to have anything to do with the cup Hearst offered.

WAR IS EXPENSIVE

LONDON, Nov. 10.—The "Army and Navy Gazette" in the current issue estimates the cost of war between Germany and France, based on the cost of the Franco-German war of 1870, and taking into consideration changed conditions between then and now.

The cost to France would be \$2,200,000,000, while Germany's outlay would be something approaching \$5,500,000,000.

TOMAH QUESTION SETTLED

MADISON, Wis., Nov. 10.—When a supervisor is elected for one ward and removes to another his office becomes vacant. This ruling was made by Attorney General Bancroft, answering an inquiry of the Monroe county district attorney. The question arose at Tomah.

BREAKS A COLD IN A FEW HOURS

Proves Quinine is never effective in the cure of a severe cold or the Grippe

Nothing else that you can take will break your cold or end grippe so promptly as a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

The most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress begin to leave after the very first dose.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

U. S. BOATS IN WINTER BERTHS

Large Amount of Work to Be Undertaken at Fountain City Bay This Winter

Again the scores of steamers and barges in the government service on the two divisions of the upper river are going into winter quarters and Fountain City Bay is taking on the usual winter appearance with numerous boats going there for repairs and overhauling during the period while they are out of commission. And large numbers of men are centering there to take up the winter's work.

Between \$25,000 and \$35,000 will be expended by the government this year for the construction of new barges at Fountain City Bay. This amount is far greater than has ever been expended for new barges on the upper river in one year. Usually there are about five new barges constructed each winter but this year twenty will be built.

Some of these barges are constructed for the purpose of conveying brush and stone to the various points along the river, while others will be houseboats used as quarters for the workmen of the different crews.

Modern House Boats

The new houseboats which will be built will be along the lines of those constructed at Fountain City last year, much more modern than those constructed last winter and are of the newer type. They are fitted with many conveniences to be had in the ordinary home.

The larger boat of the three has been occupied by the workmen. This boat is fitted up with a spacious dining room and a very modern kitchen. The upper floor is used as a bunk room. The bunks are a feature of the new boats. They are provided with mattresses and blankets and the men who have labored on the wing dams the past summer months have had as desirable home as one could wish.

The house boats which are built for the use of foremen are so appointed that their wives may be with them during the entire summer. The boat which was occupied by the foremen of the crew which operated here is one of the finest appointed boats of the kind on the river. It was well furnished on the interior, even with a large sideboard hanging lamps and draperies. The woodwork is all of oak and varnished.

Employ Many Men

To carry on the operation of building these boats this winter there will be several score men employed. Other years there have been but thirty-five or forty men at work but on account of the many more barges which will be built the coming winter the service of additional workmen will be required.

Of the 230 intelligible towns many are of considerable size, and failure to apply for the dues indicates a lack of the proper fire protection, or else negligence in making application.

HUNTS DEVIL IN FIRE

MARSHFIELD, Wis., Nov. 10.—Frank Getsinger, 23 years old, a patient at the Wood county asylum for the chronic insane, committed suicide by throwing himself head first into the fire-box under the asylum boiler.

He was suffering from a delusion that he was a divine being, and was "hunting for the Devil."

POLITICIANS LOOK TO DENEEN

SPRINGFIELD, Ill., Nov. 10.—Politicians here look for an announcement from Governor Deneen within the next few days that he will be a candidate for the senatorship to succeed Shelby M. Cullom. The governor himself is silent, but those who profess to be in touch with the situation say that while Deneen campaigns for the senate, State Senator Charles F. Hurburgh will make an attempt to capture gubernatorial honors.

WISCONSIN WANTS MORE IMMIGRANTS

Will Be Represented in Conference with Federal Officials in Washington

MADISON, Wis., Nov. 10.—(Special.)—A conference of federal and state immigration officials has been called by T. V. Powderly, head of the United States bureau of immigration, to consider better methods of distribution among the states of immigrants seeking favorable locations where they may work out their destiny. The Wisconsin board of immigration will be represented by Commissioner B. G. Packer, and the Wisconsin Advancement association by John P. Hume, manager, Milwaukee. The sessions will be held at the Ebbitt house, Washington, Nov. 16-17.

This conference will, it is said, be of great significance for Wisconsin. Both the development agencies above mentioned are co-operating in furthering the settlement of low priced lands, particularly in the northern part of the state. To hasten this settlement it is proposed to take advantage of every opportunity to induce immigrants to buy and settle upon these lands. Wisconsin, Minnesota and Michigan lead in the extent of such available lands and homes for new settlers at cheap prices. It is said that 80 per cent of the immigrants coming into New York are disposed to go upon farm lands, but the immigration officials have been handicapped in finding places for them by lack of a method of distribution, and the purpose of the coming meeting is apt to adopt some plan whereby this may be gained.

The subject for discussion will be, "The best means of establishing co-operation between the federal government, through the division of information, and the various states in the distribution of immigration and other residents of the United States." Secretary Nagel of the department of commerce and labor will deliver an address.

Eleanor Otis in De Vere of the Chorus. The hit of the season. At the Majestic.

GUARDS WATCH EVIDENCE

INDIANAPOLIS, Nov. 10.—Federal guards have been placed over the books and documents of the International Association of Bridge and Structural Iron workers, seized by the U. S. authorities for an investigation of the McNamara dynamiting cases with a view of returning indictments, charging criminal violation of the United States laws regarding the transportation of explosives. Both day and night shifts of guards were arranged for today. The evidence has been placed in a vault near the federal grand jury room.

IOWA CHILD SHOTS SISTER

OSKALOOSA, Iowa, Nov. 10.—Nellie Roberts, aged 4 years, was fatally shot last evening by her sister, Addie, aged 8, with a revolver. The children discovered the revolver under the mattress on the bed, and while playing with it, Addie pulled the trigger. The bullet took effect in the back of Nellie's head.

The parents did not know the gun was loaded, it not having been used in recent years.

Greater Sales of Poslam Than Any Other Skin Remedy

Ask any leading druggist—retail or wholesale—throughout the country which remedy for skin diseases he sells most of. "Poslam," he will reply unhesitatingly. And if he has seen its wonderful work in healing aggravated and distressing skin affections—which so many druggists have an opportunity to observe—he will state the reason; because of real and positive merit and its vast superiority over all other methods of treatment.

On its merit alone, Poslam has become the remedial success of the century, quickly eradicating deeply-seated disease which have been endured for years. It stops itching at once, permanently cures all eczemas, acne, tetter, barbers' itch, scaly scalp, pimples and every skin disorder. If you need a remedy for any skin affection, minor or virulent, employ the most successful one, the one surest, most dependable, the genuine Poslam, which may be obtained for 50 cents from Chas. A. Bey-schlag, C. N. Euler, Hebbard & Co. or any druggist.

For free sample write to the Emergency Laboratories, 32 West 25th street, New York City. Poslam Soap, medicated with Poslam, is the best soap for your skin; delightful for every toilet purpose. Antiseptic. Price 25 cents.

EXPLOSION OF ALCOHOL LAMP AT REBEKAH INITIATION AT KENOSHA, WIS., NEARLY COSTS A LIFE

KENOSHA, Wis., Nov. 10.—Miss Wilma Strosheim, 20 years old, a resident of Forest Park, Ill., is at the home of Mrs. William Irving in this city suffering from burns which she received while taking part in an initiation into the local lodge of the Daughters of Rebekah.

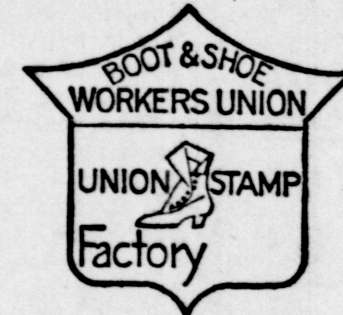

Should she recover, she will bear the marks of the ceremonies for life. She was one of the altar bearers and in one of the most solemn of the ritualistic lectures the alcohol lamp she carried exploded. In a second her clothing was on fire and one of the other members of the team, a man, picked up a bottle of alcohol and believing that it would extinguish the flames, he poured it on the young woman. In a second she was a human torch and members of the lodge fled panic stricken from the room. Then a rug was thrown about her and she was taken to a hospital.

Her hair has been partly burned off and there were great burns on her arms, her head and her back. The ones on the back were exceedingly severe.

A physician was called and the young woman was removed to a hospital where her wounds were dressed.

MADISON CHARITY BALL FUND

MADISON, Wis., Nov. 10.—At the meeting of the Attic Angels yesterday, it was found that the receipts of the Charity ball would be about \$900, to be devoted to the visiting nurses' fund and the furnishing of the children's ward in the new hospital.

The pride in your calling as a wage earner must demand that this stamp be on all shoes you buy.

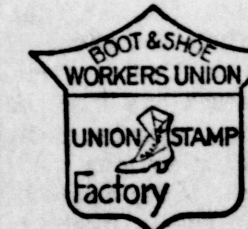

Every American who has respect for the great army of workingmen and women should refuse to wear shoes not bearing this label.

This label stands for a square deal to all. Contented workers in sanitary shops produce honest shoes.

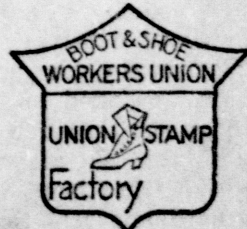

You get better shoes and more honest value when you insist on this stamp.

MAY ABOLISH THE COMMERCE COURT

Action Again Reversing
Decision of the Interstate
Commerce Commission
Brings Crisis

TEN YEARS' FIGHT IS LOST

Taft's Appointees Usurp
Powers that Do Not Be-
long to Them, Says
Legislator

WASHINGTON, Nov. 10.—Great impetus was given the movement of Representative Thetus S. Sims, (Dem., Tenn.) to abolish the United States court of commerce today following the action of that court in again reversing the interstate commerce commission this time setting aside the result of ten years' work by western cities to gain reductions in railroad rates.

The repeated action of the commerce court in overruling the interstate commerce commission in refusing to allow reductions in railroad rates granted by the commission has developed an acute situation. Members of congress now realize that the court and the commission are at swords points and that the court appears to nullify the commission, it is alleged, with the net result of nothing obtained at enormous expense.

Ten Year Fight Lost
For ten years western cities, notably Spokane, Salt Lake and Reno, fought for lower freight rates to intermountain territory and finally won their contention, in a large measure before the interstate commerce commission. Now the commerce court, by injunction holds up the reductions which would have gone into effect Wednesday, until it can make an investigation.

The Sims bill provides for the repeal of that section of the act to regulate commerce which created the court of commerce and would simply wipe it out of existence. Representative Sims based his argument on the ground that the court is hearing cases on appeal upon "questions of fact," usurping powers that do not belong to it. Sims holds that the interstate commerce commission has been created and maintained to investigate the facts in all cases presented to it, and that, in appeals, the commerce court should only consider questions of law, errors of constitutionality.

Sims' friends said today that he already had a strong backing for his measure and that they were confident it would be passed by the house this winter.

To go to Supreme Court
It is practically certain that the question of the power of the commerce court will be taken by the commission to the supreme court of the United States.

The recent decision by which the commerce court cancelled reductions in rates on California fruits caused the first sever breach between the court and the commission.

JOHN G. GRAMLIND DIES SUDDENLY

John G. Gramlind, age 76, a resident of New Hartford, Winona county, Minnesota, died of heart trouble at 7 a. m., yesterday morning at his home.

He was born in Germany in 1835, moved to this country, and is an old resident of Winona county. His death followed an illness of ten months.

Surviving are four children, two sons, George and John, who live at home, and two daughters, Miss Sophia, who resides at home and Mrs. Frank Bateman, who lives near home.

The funeral will be held on Sunday morning at 11 o'clock from the residence. Interment will take place in Hiler cemetery. William Selby has charge of the funeral arrangements.

KEIZER WILL NOT BE OUT FOR OFFICE

Supervisor of Assessments J. E. Keizer today announced that he has reconsidered his intentions of taking the state civil service examinations for the position of assessor of incomes and that he will end his duties as supervisor of assessments at the end of this year. Mr. Keizer yesterday said that he would take the examinations for the new position, but after careful consideration has decided to retire.

Real Enemy of Aeroplane.

One still often reads comments on the effects of musketry on aeroplanes, usually written by those who have probably never seen the effect of bullets fired from a distance. It has been truly said that to hit a "rocketing" aeroplane with a rifle shot is an extremely difficult matter, but to conclude that the aviator is therefore immune when at 1,000 feet up is absurd, says Sir Baden-Powell. It is not the danger from one marksman that has to be taken into account, but volleys from a whole battalion. If 3,000 or 4,000 shots be fired at a machine while it traverses one hundred yards, there is a good chance of its sustaining some danger so long as it is well within range. It is, however, the Maxim gun that seems likely to be the most formidable enemy of the aeroplane. All such guns must in future be mounted in such a way as to enable them to be fired nearly vertically.

Face Of Mormon Apostle Decorates Warship "Utah"

G. E. LEWIS SEN. R. SMOOT MISS TOUTS GOV. SPRY CAPT. BENSON

NEW YORK CITY.—That creeds cut little figure in the navy was shown at the Brooklyn Navy yard when a silver service bearing the likeness of Brigham Young was presented to the battleship Utah, despite the efforts of hundreds of persons. In the presence of 600 guests

the service bearing the face of the Mormon leader was presented to the ship while a choir from the Temple in Salt Lake City sang. The service which it is said cost \$15,000 was bought by school children in Utah. It is one of the most costly in the navy. Gov. Spry, Senator Smoot, many other citizens of Utah and the

choir boarded the warship with full naval honors. Then Gov. Spry, with a few words of praise for the Utah and its men, presented the service to the ship. Miss Hazel Touts moved the flag that had covered the silver. After Capt. W. S. Benson had accepted the service the choir sang "I love Utah."

PROGRESSIVES TO MEET DECEMBER 5

Three or Four Hundred
Workers of State to At-
tend Banquet in
Milwaukee

MILWAUKEE, Wis., Nov. 10.—At a conference of republican progressives in the club room of the Plankinton house Wednesday night it was decided to hold a meeting and banquet at some hotel in Milwaukee December 5 to be attended by 300 or 400 workers from various points of the state.

It was also decided to organize Milwaukee county.

At the December meeting steps will be taken to obtain a solid delegation to the next national republican convention for Senator La Follette as a presidential candidate. The only subject up for discussion was the question of the coming progressive meeting which is to be addressed by George L. Record of New Jersey and Charles E. Merlam of Chicago. It was finally decided that in view of the fact that Senator La Follette could not come here that it would be better to limit the meeting to 300 or 400 progressive leaders from the city and state.

The place will be selected later.

PIONEER SETTLER BURIED TODAY

The funeral of Captain Daniel A. Thayer, one of the pioneer settlers of La Crosse and a prominent river captain in the early days, was held from the residence, 833 Caledonia street, at two o'clock this afternoon, the Masons having charge of the services. A large number of Mr. Thayer's friends and relatives attended the services.

CASE DISMISSED

A. M. Goldish, charged with receiving stolen goods, was discharged upon his paying \$11.20 costs yesterday.

People pay the delivery drivers, all right, but they can't boss them.

FOR HUBBY—A WATCH!

Make the selection now, when we can give you all the time you want to make a deliberate choice—and when you will not be hurried.

We want to show you some fascinating extra thin Gold Watches, now very fashionable. They are perfect time-keepers, and nothing you can give Him will be so joyously welcomed. We will hold it for you on a small payment, if more convenient for you.

DODGE DUTY ON M'NAMARA JURY

Big Business Men Make
Many Excuses for
Not Desiring to
Serve

STATE FEARS AN OPEN LIST

Sheriff May Be Forced to
Make Own Jury
List from the
Tax Rolls

LOS ANGELES, Nov. 10.—When the fifth panel of veniremen in the McNamara case reported today for qualification nearly every one of the forty drawn presented excuses. The majority are residents of this city and most of them are big business men and members of the Merchants and Manufacturers' association, which directed the prosecution of McNamara.

There was little chance of filling the six vacant chairs in the box with this panel. There are fewer than 300 names remaining in the jury wheel eligible for service. When the list is exhausted the sheriff will be compelled to make up his own jury list from the tax rolls. Because of this, the state is extremely desirous of qualifying a jury from the regular veniremen. It has a complete record of these men's affiliations, and would be embarrassed if an open list would have to be made.

Byron Lisk, one of three permanent jurors, is complaining that his eyes are giving way under the confinement and it is extremely likely that he will have to be excused. Of the trio subject only to peremptories, it is now believed certain the defense will eliminate Major Brewster C. Kenyon, millionaire oil mining operative, because of a report received today that he is very friendly with the National Association of Manufacturers' officials.

The state will undoubtedly perpetually challenge Clark McLane, a Pasadena banker, who admitted that he despised General Otis.

An Ancient Bet.

Near the ancient country seat of the Carews in Cornwall, England, stands a quaint old church, to the door of which are nailed four horse shoes. These have been in their present position for nearly 500 years. A former member of the Carew family made a wager with a friend that he would ride his horse a mile out to sea in Tor bay and back again. The fact was more difficult than appears at first sight, for the cross-currents are dangerous, even for boats.

He won the bet, however, and nailed the four horse shoes of his steed to the church door to commemorate the performance.

NEW YORK HIRES STRIKE BREAKERS

Armed Policemen Guard
Drivers of Garbage
Wagons Employed
by the City

AN EPIDEMIC IS THREATENED

General Strike of Teamsters
May Be Called; Night
Work Cause of the
Trouble

NEW YORK, Nov. 10.—New York city today is trying, in a municipal way, the very latest and improved methods of strikebreaking, and it is proving an expensive proposition, added to which is the constant menace to public health occasioned by failure promptly to remove the tons of garbage that are piling up on the city's streets, due to the strike of the city garbage carters.

New York has gone into the strikebreaking business along the same lines employed by big industrial corporations—employing men at \$5 a day and guarding them with city police. Already more than 5,000 of these professional strikebreakers have been employed.

The 2,445 drivers and extra men of the department of street cleaning who are on strike, are using the "strikebreaking" method of the city for political ends, and labor unions are rallying to their support.

The reply of William H. Ashton, general organizer of the International Brotherhood of Teamsters, who has taken charge of the men's fight, was a move for an injunction to prevent the civil service board from erasing from its rolls the names of the strikers, and a veiled threat that a general strike of all the teamsters in the city hall will be called.

The drivers and garbage men went out because they were forced to work at night. They insisted that all garbage should be collected during the day.

The strike assumed a far more serious aspect today when individual street sweepers began walking out in sympathy with the drivers.

Every residential district—Fifth avenue and Riverside drive as well as the lower and upper east side tenement districts—is suffering from the stench of uncollected garbage. Cool weather fortunately prevails, and has minimized the danger of an epidemic.

CONGRESSMAN ESCH TO SPEAK TONIGHT

Congressman J. J. Esch will deliver an interesting number of the "Travel Talks," now being given at the Y. W. C. A., tonight when he will talk on "Panama," which subject he is well qualified to lecture on as he has made several trips to that place with the interstate and foreign commerce committee.

The lecture, which will be held in the association building, will begin at 7:45 and is open to both ladies and gentlemen. Miss Bertha Shuman will show views of the canal by means of a microscope to illustrate the talk. In view of the fact that Mr. Esch is so well versed in Panama affairs and that pictures will be shown, the lecture should prove interesting to everybody.

STEPHENSON REPORT IS BEING PREPARED

WASHINGTON, Nov. 10.—A report on the investigation of the election of Isaac Stephenson, of Wisconsin, to the United States senate, is being prepared by the sub-committee of the senate committee on privileges and elections that conducted the inquiry. This report will be submitted to the full committee at the opening of congress. It will then be decided whether more witnesses shall be examined, but the prospect seems to be that the report will be made final.

WILL DUCK STUDENTS

MADISON, Wis., Nov. 10.—(Special.)—Despite President Van Hise's counsel that ducking of freshmen in the lake is a criminal offense punishable by the courts, the student conference of the University of Wisconsin, last night voted to permit coercive punishment of this kind. It will not be administered however before three upper classmen have passed upon the guilt of the accused in violating university traditions.

TWO KILLED BY TRAIN

HIBING, Minn., Nov. 10.—John Lampkin was beheaded and Emil Jackson was cut in two by a switch engine this morning while walking on the tracks. John Sari was probably fatally injured. All worked in the Scranston mines.

The men did not hear the engine approach.

MAN CHIDED; KILLS SELF

AURORA, Minn., Nov. 10.—William Nelson, 72, killed himself this morning by cutting his throat, because his son chided him for not doing the chores.

MRS. LOVEDAY DEAD

Mrs. Herbert G. Loveday, 222 South Eighth street, died at the La Crosse hospital this noon, after an illness of about a week.

The wise man does not let his wife hear him boast that he is a good manager; she knows better.

HIGH STARTS PAPER

ONALASKA HIGH SCHOOL ENTERS
FIELD OF JOURNALISM WITH
NEW PUBLICATION, TO BE
ISSUED QUARTERLY

The first issue of the High School Echo, published by the students of the Onalaska high school, has just been issued. It is a new venture with the school, and will be published quarterly, with fall, winter, spring and commencement numbers.

The paper is eight pages, full of good live material concerning the student body, with an original story of merit on the first page. The editorial page also shows marked ability in its style.

Two former ventures in high school papers have been made at the Onalaska high school, but all died an inglorious death after a few issues. The staff of the latest journalistic attempt, however, expresses confidence in the future of the Echo.

The staff consists of the following:

Editorial staff—Editor in chief, Herbert Gaarder, '12; literary editor, Myrtle Nelson, '13; castalia editor, Grace Meyers, '14; alumni editor, Gladys Cox, '12; exchange editor, Edwin Berg, '13.

Reporters—Senior, Arthur Holt; Junior, Effie Osgard; sophomore, Royce Phelps; freshmen, Ferol Delameter; grades, David Moore. Business staff—Business manager, Warren Aiken, '12; circulation manager, Ferno Aiken, '13; treasurer, Alex Thompson, '12.

KLEEER APPOINTED BY THE COMMISSION

Superintendent L. Kleeber of the local branch of the state free employment bureau today received notification from the industrial commission of his permanent appointment to the position. For some time the question of whether or not the local branch would be continued, has been before the commission and the splendid work which has been accomplished by the La Crosse bureau has doubtless been a strong factor in their decision.

Mr. Leiserson was sent here several months ago by the commission and after his report which was favorable for the continuance of the office, Mr. Kleeber was appointed for three months. The other four superintendents received like appointments at the time.

NOTICE OF APPLICATION TO COUNTY COURT

State of Wisconsin, county court, La Crosse County—ss.—In Probate.

Notice is hereby given that at a regular term of the County Court, to be held in and for said County, at the Court House, in the City of La Crosse, in said County, on the first Tuesday, being the 5th day of December, A. D., 1911, at ten o'clock A. M., the following matter will be heard and considered:

Simply buy what you want at the Continental any time during our Thanksgiving Sale, which ends Thanksgiving Eve., Nov. 29th, at 10 P. M. and you get a fine Thanksgiving Turkey absolutely Free. In order to do away with the necessity of having the turkeys kept at our store, we will issue coupons, which will be redeemed for turkeys on and after Nov. 23rd. These turkeys will be good ones and you are assured of a swell Thanksgiving Dinner by trading here.

**THE THANKSGIVING
SPREAD OF
OVERCOATS
READY TO BE SERVED**

A spread it is indeed, one-half of our immense floor space devoted to Overcoats. No store in the Northwest, between Milwaukee and the Twin Cities, can show near the amount of styles and fabrics, as you now have the opportunity to choose or select from.

There are coats here for the elderly man, the middle age man, the young man, for men of all ages; coats built on lines adapted and becoming to men of any build. The "Chesterfield," "The Ulsterette," "The Button Thru," "The Belted Back Ulster," all popular styles for this season, made up in browns, tans, grays, blacks, and Scotch mixtures.

If you are a very discriminating dresser, one used to having coats made to order, hard to please, hard to fit, be sure to come to this Thanksgiving sale. We have a coat to please every one.

Burns cheapest slack. Holds fire 48 hours. Equipped with all modern devices automatically regulating temperature, etc. Only best new steel and iron used in their make-up

CIVIL SERVICE OF BENEFIT TO STATE

1911 Session of Legislature Required Only One-third as Many Employees as 1901

EXPENSE GREATLY REDUCED

Comparison with Illinois Shows Superiority of Methods in Use in Wisconsin

MADISON, Wis., Nov. 10.—(Special.)—The 1911 session of the Wisconsin legislature required only one-third as many employees as the session of 1901, and the average cost for legislative clerical help has been reduced 45 per cent in the last five years, or since the installation of the civil service system. These facts are shown by the records of the state civil service commission. The statement was made recently by Secretary F. E. Doty.

While there are several states which have civil service commissions, Wisconsin is the only one that selects employees of the legislature by the merit rule. Opportunities for significant comparisons are numerous. In 1901, for example, when employees were chosen under the spoils system, it required a clerical force of 255 at an average daily expense of \$502 to assist the lawmakers. In 1907 the same work was done by 105 employees selected by civil service rules at an average daily cost of only \$237. The session of the legislature which ended on July 17 last cost the state approximately \$63,000 for clerical help, at an average daily expense of about \$335. In 1901 it cost the state \$58,300 for legislative clerical help for each bill introduced during the session. The cost per bill in the 1909 session was only \$32.79, and the figures indicate that the cost for the last session was about \$30 per bill.

This is in striking comparison with the legislature of Illinois which elected Lorimer. Upon the above basis, each bill introduced in that legislature cost \$113.

Secretary Doty's compilation for Wisconsin shows that for the last eight sessions of the legislature before the civil service law was enacted the average number of legislative employees required was 201, and the average cost per day for their services was \$433.76. At the last two sessions, when this law was effective, the same work was done by an average of 103 employees and at an average cost per day of \$299.56. Every bill introduced in the eight sessions under the so-called spoils system, from 1891 to 1900 inclusive, cost the state \$44.55 for legislative service; while at the two sessions, 1907 and 1909, the cost per bill was reduced to \$32.53.

The figures indicate that enough has been saved in the decreased cost of legislative employees alone to pay the present expense—about \$15,000 annually—for the maintenance of the civil service commission. Meanwhile the civil service department is increasing the efficiency of employees at the same time it is lessening the expense to the state.

PEOPLE TO STUDY MONETARY QUESTION

MADISON, Wis., Nov. 10.—Through business men's clubs and other organizations in various sections of the state, a strenuous effort is being made to interest the people in the study of the monetary situation. The movement has been launched by Former Senator William H. Hatcheson, university extension, is preparing a bulletin for circulation in the public libraries. Thousands of letters have been sent out to business and professional men asking that they co-operate in the education of the people by fostering discussions in business organizations, farmers unions, clubs, labor organizations and lecture courses.

LUNCH CLUB GETS BUSY

MADISON, Wis., Nov. 10.—The activities of the Saturday Lunch club, a local forum for the discussion of educational and political topics, will be resumed early next month. Established one year, it has been given a wide prestige by the character of the men who compose its somewhat exclusive membership and by the speakers who have addressed it. There is intention to keep up this standard. Outside speakers will be engaged, but more recognition of authoritative local men for the post-prandial program will be given in the coming year. The university, governmental and business life of Madison is centered in representative manner in this club, which Senator La Follette praised highly in the first chapter of his autobiography.

The more friends a man has the more it costs him.

TOMORROW IS THE LAST DAY

All this week we have been entertain-
ing the Ladies of La Crosse at our

DEMONSTRATION

— OF —

LAUREL RANGES

We have convinced the most skeptical that the LAUREL is unsurpassed as a Heater, Cooker and Baker—and no wonder—no other Stove has the twin Flue construction which allows you to heat the oven or not just as you choose, and which uses every partical of heat generated, thus saving money on fuel bills.

The expert that has been conducting this demonstration has expressed himself as being highly pleased with his reception and the results he has accomplished, and believes he has shown those who have been present this week that the LAUREL is

The Acme Of Stove Perfection

Only one day remains in which to have this man explain the WHY and WHEREFORE of the Laurel and we urge everybody who can to come and see for themselves just what the LAUREL is. You will not be urged to buy.

Every visitor will be presented with a handy souvenir, and every purchaser of a LAUREL this week will receive a beautiful premium free.

LAUREL STOVES ARE UNION MADE.

DEATH RATE OF STATE IS LOWER

Decrease of 1.3 per Thou-
sand for 1911 Is Shown
in Report of the
Bureau

CHILDREN'S LIVES ARE SAVED

Various Educational Cam-
paigns Against Prevent-
able Diseases Have
Effect

During the months of July, August and September, 1911, 6,232 deaths were reported to the state bureau of vital statistics by the various local registrars throughout the state. This is exclusive of 387 still births and corresponds to an annual death rate of 10.57 per thousand estimated population. Comparing this rate with the rate of 11.87 per thousand for the months of July, August and September, 1910, it is found that there is a decrease of 1.3 per thousand for 1911. During the third quarter of 1910, 7,107 deaths, exclusive of still-births were reported. This shows a decrease in the number of deaths for 1911 of 875.

The report is given as follows: "Considering the deaths reported by age groups the statistical table shows that there is a decline of 367 in the number of deaths among children under one year of age; a decline of 202 in the age of group from one to four years; and a decline in the number of deaths of persons sixty-five years of age and over. The decline of 569 in the number of deaths of children under four years of age is significant and, we believe, can be satisfactorily accounted for by a careful study of the deaths by diseases which are tabulated for the quarterly bulletin.

"Important causes of death with the number of deaths from each disease are as follows: pulmonary tuberculosis, 455; other tuberculosis, 102; typhoid fever, 70; diphtheria, 58; scarlet fever, 30; measles, 15; whooping cough, 41; pneumonia, 250; diarrhoea, enteritis, under two years, 458; meningitis, 83; influenza, 7; puerperal septicemia, 16; cancer, 408; violence, 496; and still-births, 387.

"Comparing the number of deaths from certain diseases for the months of July, August and September, 1911, with a similar report for 1910, we find that there was an increase in the number of deaths, as follows: Other form of tuberculosis, 25; influenza, 2; cancer, 16; and violence, 29.

"There was a decrease in the number of deaths from the following diseases: Pulmonary tuberculosis, 13; typhoid fever, 59; diphtheria, 19; scarlet fever, 25; measles, 8; whooping cough, 14; pneumonia, 10; diarrhoea and enteritis under two years of age, 374; meningitis, 66; puerperal septicemia, 4; and still-births, 6.

"We are confident that there is increased accuracy in the report of deaths from month to month and know from the investigations which we have made and reports which the local registrars have sent us, that practically every death which occurs in the state, is now recorded and the original certificate forwarded to our office as the law requires. The problem, therefore, is to account for the decline of 875 in the number of deaths which we make for the bulletin by causes shows that there is a decrease in 1911 as compared with 1910 of 591 deaths from the so-called preventable diseases. This together with the decline of 569 in the number of deaths under four years of age, many of which resulted from other diseases than those tabulated, will account fully for the decrease. This report should be especially encouraging to those who believe in the doctrine of preventive medicine and are assisting in the campaign of education which will eventually result in practically eliminating many easily preventable diseases from our state.

"The work which has been done in Wisconsin during the last year by the state and local anti-tuberculosis associations, by the anti-fly campaign, by the organizations for the prevention of infantile mortality, and more particularly by the newspapers, both daily and weekly, is assisting materially in the conservation of the lives of our people. Mothers are learning to care for their children during the hot summer months and as a result the number of deaths from infantile diarrhoea, an easily preventable ailment, has been reduced nearly one-half.

"The northern section of the state has a death rate for this period of 8.7 per thousand estimated population, while the rate for the central section is 11.25, and the rate for the southern section is 11.6.

"Considering the number of deaths from violence, we find that 91 resulted from accidental drowning; 83 from railroad accidents; 64 from suicide; 24 from horse vehicles and horses; 23 from accidental gunshot wounds; 16 from accidental burns and scalds; 13 from accidental poisoning; 13 from heat prostration; 12 from accidents due to machinery; 12 from homicide; 10 from lightning; 7 from automobile accidents; 6 from sunstrokes; 3 from electrical shocks; 2 from street car accidents, and 1 from hydrophobia. There were ten deaths from acute poliomyelitis or infantile paralysis; 3 from tetanus; 2 from lead poisoning, and 2 from pelagra.

"Seven of the deaths from infantile paralysis during the months of July, August and September are distributed as follows: Winnebago, 2; Fond du Lac, 1; Green, 1; Green Lake, 1; Langlade, 1; and Wauke-
sha, 1.

FROST SEEN ON MARS

FLAGSTAFF, Ariz., Nov. 10.—Crops on the planet Mars probably suffered from frost last week. A special report issued today by the Lowell observatory staff relates that the first signs of winter's approach on the planet had been observed through the big telescope, on November 3. In the Martian calendar this would be about August 16. Snow is very frequently seen covering parts of Mars, but this is the first time astronomers have been able to locate a frost.

FARMERS TO MEET

MADISON, Wis., Nov. 10.—Farmers' institutes will begin in Wisconsin on December 11, 1911, under the auspices of the College of Agriculture of the university of Wisconsin. A lively season is expected as requests for institutes have come from all parts of the state. Such topics as livestock, forage crops, silos, creameries, road building, horticulture, poultry and co-operation among farmers will be discussed.

What a man is when alone is what he is.

"SLAVE" TANGLE IN RACINE

RACINE, Wis., Nov. 10.—Nellie Larson, 14, who a year ago was instrumental in having her step-brother sent to prison for three years for assault, and then went to Kenosha, today caused the arrest of three young men of Racine on a similar charge. She ran away to Chicago last Friday with two others girls for the purpose of going on the stage but the trio were arrested and sent back to Kenosha. A naval station recruit and a woman "white slave" only known to the girl by sight are also implicated.

The Knock-out Blow

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but to the stomach we are utterly indifferent, until disease finds the solar plexus and knocks us out.

Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures weak stomach, indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This will be seen that they contain not a drop of alcohol—pure, triple-refined glycerine being used instead.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, cloth-bound. Address Dr. Pierce as above. Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

POEHLING'S

TIGERS STARS

First picture of two of Princeton's stars who almost single handed defeated Harvard in Saturday's game, thereby establishing the Tigers as the principal contenders with Yale for the championship of the east.

NORMAL NEWS

The first half of the first semester closed at the normal school today. The regular classroom work will be resumed Monday, however, as most subjects taught are carried by the student for at least one semester, and this will make necessary the organization of but few new classes at this time.

President Cotton, Professors Sanford, Bernhard, Denoyer and Best, and the Misses Oltman, Hutchinson and Hitchcock are all in Milwaukee attending the meetings of the Wisconsin Teachers' association this week. President Cotton presented a paper before the rural school conference this afternoon on "The Next Step in Our Effort to Improve the Country School."

Dr. William Byron Forbush of Detroit, Mich., gave his lecture on "The Heart of a Boy" to an interested audience in the normal auditorium Wednesday evening. His plea was one for a study, understanding and appreciation of a boy's nature. He emphasized especially the fact that boys have deep-seated racial instincts, e. g., pugnacious and gregarious instincts, which must be reckoned with. The fighting instinct is not to be uprooted, but directed. Under favorable conditions it will be absorbed by the growing boy and add to the possibilities of his maturity. His "gang instinct" is in like manner innocent, but if permitted to express itself in unrestricted and unsupervised ways, may be the means of accelerating a boy's downward course.

Dr. Forbush appeared before the students and faculty for a half hour's address in the afternoon. He chose for his theme, "The Enlargement of

Life Through Foreign Travel." His illustrations were drawn from his personal experiences abroad, and interest in all he said was heightened by references to places and persons he had visited, made memorable by their connection with Burns of Shelly or Kingsley or some other historical or literary celebrity.

One of the many organizations supported in the normal is the German club. The next meeting of this club will include upon its program Dr. and Mrs. Nurse and Dr. Bernhard, besides the Misses Neprud, Koehler, Hanson, Ochsner, Luedke, Vollmer, Reimers and Dietrich.

This evening there will be a mass meeting in the gymnasium to arouse interest in and enthusiasm for the big game of football between La Crosse and River Falls tomorrow afternoon at 2:30 in League park. As this is the last game of the season for the school, the team will be sure to have splendid support. The advance sale of tickets indicates that the attendance will be large.

Dead Buildings Into Tombstones.

"I was much surprised," said a New Yorker recently, "to learn that the granite fronts of old buildings that are being torn down are used for tombstones. I was watching some workers at work on an old business building, and, being curious, asked the foreman what was to become of the row of big columns that was holding up the front of the building."

"Well," said he, "I can't tell you exactly, but it would not surprise me a bit to see them broken shafts decorating some big man's grave next year. A good deal of the granite that comes out of old buildings," he continued, "goes to the tombstone carver."

Durability of Steel.

It has been shown that nearly all the failures of steel occur very early in its history. If a plate or bar of mild steel lasts for a year in service, it may be trusted to last for many years. The most injurious thing is continued bending backward and forward, as in what is called the "panting" of a boiler end. As one authority puts it, steel has a somewhat "tumultuous youth," but "in middle age it is trustworthy, and in old age beyond reproach." In regard to corrosion there is a difference of opinion, some holding that steel corrodes more readily than iron.—Harper's Weekly

Headache Relief and No Danger

You run no risk when you use MUSTEROLE to relieve that headache and miserable feeling from cold or congestion. And it acts at once! MUSTEROLE is a clean, white ointment, made with the purest oil of mustard. Better than a mustard plaster and does not blister. Used externally and in no way can affect stomach and heart, such as some internal medicines do.

You should have a jar at hand and in your home. Best for Sore Throat—Bronchitis—Croup—Stiff Neck—Asthma—Neuralgia—Congestion—Pleurisy—Rheumatism—Lumbago—All Pains and Aches of the Back or Joints—Sprains—Sore Muscles—Bruises—Chilblains—Frosted Feet—Colds of the Chest (it prevents pneumonia).

Sold by leading druggists everywhere. Many of these druggists have the MUSTEROLE sign (shown below) in their windows. MUSTEROLE comes in jars of two sizes, 25c and 50c. Accept no substitute. If your druggist cannot supply you, send 25c and we will mail you a jar postpaid.

The Musterole Company, Cleveland, Ohio.

"Having used Musterole for a headache and a general bad cold, I can say it is all you claim for it if not more, and will recommend it to anyone wishing relief in short order." JOHN FALLER, Cleveland, Ohio.

WISCONSIN PLANS BIG EXHIBITION

Badger State Will Have Five Booths at Chicago Land Show in the Coliseum

WILL DISPLAY A FINE CROP

Motion Pictures to Illustrate Agricultural Scenes and Processes

MADISON, Wis., Nov. 10.—(Special.)—Five booths attractively displaying nine of the most representative crops grown in Wisconsin, supplemented with moving pictures of typical Badger agricultural scenes and processes, will keep Wisconsin in the forefront of states at the United States Land and Irrigation exposition which will be held in the Coliseum at Chicago, Nov. 10-Dec. 9. The exhibit will be maintained by the state board of immigration, with Commissioner B. G. Becker in charge. There will be separate booths for cereals, potatoes, livestock and dairying, and forage crops.

The lecture periods each day will be featured by moving pictures of the making of the largest cheese in the world at Appleton, Wis. Stereoscopic views also will be shown to illustrate scenes in the northern Wisconsin agricultural regions.

November 25 will be Wisconsin day at the exposition and it is planned that Governor McGovern and others in official life shall be present and address the assemblage. Opportunity will be taken of this gathering of many thousands interested in farming matters to call a meeting of prominent farmers to consider the question of marketing farm products. Elimination of the cost of the middleman as much as possible, with consequent saving to the consumer and proportionately higher price for products sold by the farmer is sought by this plan, of which thorough discussion will be invited.

Tobacco growers around Madison and Viroqua have been asked to submit exhibits, and manufacturers of tobacco have been requested to prepare novel and attractive samples of their products.

The state of immigration will also show varieties of Wisconsin pedigree corn which proved its adaptability to any soil and eliminate its lasting qualities by its great yields in South Africa and at Odessa, Russia.

How to Use a Life Preserver.

"The worst trouble about a life preserver," said an old sailor, "is that few people know what to do with one when it's thrown to them. Many a man would drown in trying to get a life preserver over his head."

"The average person struggling about in the water would try to lift up the big life ring and put it over his head. That only causes the man to sink deeper and take more water into his lungs."

"The proper way to approach a life preserver in the water is to take hold of the side nearest you and press upon it with all your weight. That causes the other side to fly up in the air and down over your head, 'ringing' you as neatly as a man ringing a cane at a county fair. After that the drowning man can be rescued."—From the American Boy.

If our mistakes teach us nothing it were hardly worth while to make them.

A horse is not of any use until it is broken, but it is different with a plow.

A hen will spend a whole day getting up an egg that a hungry man can eat in a minute.

COLORED TRIO IN BIG MAJESTIC HIT

Singers, Talkers and Dancers Are Riot of Fun and Head Splendid Vaudeville Bill

A HUMAN INTEREST SKETCH

Eleanor Otis & Co. Present Touch of Stage Life that Strikes Tender Chord

With three exceptionally clever colored entertainers heading the bill the Majestic theater the latter part of this week is presenting a bill that is the equal and in many ways the superior of any shows presented this season.

The bill has been selected with exceptional care on the part of the management, each act fitting into its particular part of the program. From rise to fall of the curtain the show is a real entertainment, from Goetzinger's overture to the final moving pictures.

The Pumpkin Colored Trio is the way the products of the south bill their act and for twenty minutes La Crosse people are entertained with singing, dancing and talking far better than has ever been put on here by the members of the dusky colored race.

The costumes used by the trio are of the latest cut and are really expensive. The act is "classy" and one of the performers is a comedian who is constantly spicing the sketch with laughs.

Human Interest Story An act that appeals to all and in which is found a beautiful human interest story is that in which Eleanor

FLORAL PARADE PUBLIC INSTITUTION

ARTHUR F. WALL

HONOLULU, Hawaii. — Hawaii, the famed "Crossroads of the Pacific" will fling open its portals next February to what is expected to be the largest tourist crowd that ever visited the Islands.

Otis is starring. The playlet portrays a typical dressing room in a big theater. Miss Otis is the typical member of the chorus, calloused to all the hardships in the theatrical life but still retaining the tender heart typical of the real man or woman. The other character is the ambitious girl who has saved for months to secure a musical education and who in reality has a voice of rare sweetness. She tells the chorus girl of her trials and tribulations to get even a tryout in this minor part, recounting that she had been down to her last nickel when she was notified of a vacancy in the chorus.

Just as her enthusiasm reaches white heat the manager steps in and announces that the part has been filled and that her services are not needed. It is here that Miss Otis gets in her clever work. She has been touched by the enthusiastic story of the young girl and immediately feigns drunkenness, is discharged by the manager and the ambitious and aspiring girl is given a tryout in her place. The chorus girl's glance into her own pocket book tells a story all

by itself and her comment "I always was a soft nut," ends as pretty a sketch as one could desire.

The act is brightened throughout by Miss Otis' clever use of American slang and "stacy" expressions.

Corkscrew Kids The Corkscrew Kids, Provost and Brown, present a clever comic acrobatic act that pleased all at the opening performance yesterday.

Harry Fetterer is a ventriloquist of rare ability and his twenty minute act with a coon "dummy" was the source of much enjoyment for the enthusiastic audience last night.

The moving pictures this week are entertaining and one, "Lumbering in Sweden," is particularly appealing to La Crosse people back twenty years ago to the days when the Black and Mississippi rivers were the scenes of activity in this big industry.

The "Three Dreamers," harmony singers and dancers, are clever and their work was well received.

We notice that most people who are consumed by curiosity still survive.

CHAMPIONS WIN NINE STRAIGHT

Painters, Stars of Bowling League, Have Not Lost a Game Since Start of the Season

By taking three straight games from the Nationals last night, the Painters, last year champions of the Commercial Bowling league, made it nine straight victories. They have not lost a game since the opening of the season. They now lead the league with a perfect score.

Every one of the games rolled by the Painters last night was over the 800 mark, the scores being 857, 812, and 818. Mekvold, was the Painters' star, taking high man honors with a 200 score. He rolled the high score in his second game.

Following are the scores of the games:

Painters	1st	2nd	3rd
Verket	162	148	126
Poehling	145	178	172
Hausner	187	152	188
Mekvold	184	200	169
Voves	179	134	163

Total	857	812	818
Nationals	1st	2nd	3rd
Roth	116	162	161
Osweller	152	158	153
McDonald	147	107	126

CALLS WISCONSIN DOUBTFUL STATE

James L. O'Connor Says the State May Go Democratic in Next Presidential Campaign

MADISON, Wis., Nov. 10.—(Special.)—"Under the existing conditions in this state, I have no hesitancy in prophesying that with President Taft as the candidate of the republican party, and a strong progressive democrat at the head of our party, Wisconsin will, in the next presidential campaign, be as doubtful a republican state as there is in the union."

This is the statement of James L. O'Connor, a leading Milwaukee attorney and former attorney general, in a signed article in the National Monthly for November. This magazine is published by Norman E. Mack, democratic national chairman. Under the title of "Political Conditions in Wisconsin," Mr. O'Connor reviews the progress made in progressive legislation, caustically criticizing large expenditures of money in recent primary election campaigns in this state. He warmly commends, however, the passage of the corrupt practices act, which limits its expenses, and says:

"If this law is honestly enforced, neither the national nor state elections held in this state will hereafter be decided in favor of those who have at their disposal the largest campaign fund."

After enumerating the large amounts of money spent in the Stephenson campaign, Mr. O'Connor says that "at the last primary election contest for the United States senate, \$214,000 was reported in a sworn statement as having been spent to defeat the renomination and re-election of Senator La Follette. This is the only conspicuous exception we have witnessed under the primary election where the largest campaign fund failed to secure the nomination."

After prophesying that this condition can no longer exist since the passage of a stringent corrupt practice act, Mr. O'Connor calls into comparison the records of Senator La Follette and Woodrow Wilson. He declares that "in one single short session of the legislature of New Jersey, under the leadership of a strong democratic governor, who combines the profound knowledge of a student with the courage and wisdom of a statesman, having opposed to him the combined forces of the democratic and republican machines, with the republicans in control of one branch of the legislature, he, nevertheless, by his courage, tact, intelligence and personality, had enacted into the laws of his state nearly every measure of reform which has required seventeen years of republican effort to accomplish in Wisconsin."

"George Sand."

It was from Leonard Jules Sandeau, the celebrated French novelist and dramatist, born at Aubusson a century ago, that another and far greater writer derived her nom de guerre.

When a young student in Paris Sandeau made the acquaintance of Mme. Dudevant, and during a short-lived friendship they collaborated in a novel, "Rose et Blanche," which was published in 1831. Then they parted, but Mme. Dudevant, while relinquishing Sandeau's friendship, took to herself a portion of his name and elected to be known henceforth as George Sand.

DEBATE CALLED OFF BECAUSE OF RAIN

Rain, and the inability of two of the speakers to be present at the meeting, caused the debate on the authority of the United States supreme court at the Franklin Club last night to be called off. The meeting was thrown open to general discussion in which all the members took part, and proved to be one of the most interesting sessions which the club has held this fall. W. E. Barber, Prof. Hayden and William McGough made especially strong speeches on the subject. Next week's meeting of the club will be devoted to the annual mock trial.

COTTON TALKS ON COUNTRY SCHOOLS

Education of the Future Must Inspire Love for the Land, Declares La Crosse Man

"Education in the future in the country schools must inspire a love for the land. It must make better farmers of the boys and better homemakers of the girls. It must teach them the dignity and value to the nation of agriculture, and keep the boys on the farm."

These were the prophesies delivered this afternoon by Fasset A. Cotton, president of the La Crosse normal school, in an address on the future development of the country schools. He spoke before the rural school conference of the State Teachers' association, the convention of which is meeting this week in Milwaukee.

Prof. Cotton's address dealt with the problem met with in the work of country school teachers. He told of the needs of the work, and the proper methods with which to get the best results.

"The demand of the twentieth century," he said, "is for an education that is really practical. In the past the chief complaint registered against education is that it has been too visionary, and our schools have been operated on the principle that the world of every-day life is too commercial. In the future there will be a closer relation between the work of the school and the work of life."

Have Gained Much
"In the past we have been enriched by the natural resources of the land, by the developments of coal fields, mines, and the like. These have now practically all passed into private control, and the wealth of the future will be gained by skilled workers directing intelligent effort along some particular line. Luck must give way to science in making a living."

Taking the case of the country school, Prof. Cotton showed that the instruction in this type of school

PROPOSITION IS TWO-SIDED

City Girl and Country Lad View the Farm Life From Different Angles.

"I have often wondered, Mr. Clovertop, if the people living on these dear old farms amid scenes of such peaceful and quiet rural beauty, have as keen an appreciation of the wondrous beauty of field and hill and meadow and sky as we dwellers in the city have when we catch our all too fleeting glimpses of them when we face backward for our brief midsummer holiday," said Miss Annabelle Gushington to Adoniram Clovertop when he was taking her from the station out to his farm.

Then she added:
"O, I am quite sure that you must be sensible of all the charm and beauty of your quiet, happy, peaceful environment. Are you not, Mr. Clovertop?"

"Wa-al, it's this-away," said Mr. Clovertop—"when a feller has pulled out o' bed at three-thirty in the mornin' an' has milked nine keows in muskeeter an' fly time an' the keow critters has basted ye with their tails for a couple o' hours an' mebbe kicked ye over a few times an' then ye have to give a drove o' screechin' haws their feed an' a hundred ole hens is chasin' ye all over the barnyard cluckin' fer their breakfast an' a calf or two grays ye all over the barnyard while ye air tryin' to git them away from their mothers an' the thermometer shoots up to a hundred in the shade an' ye have to dig weeds or bug taters all day or git in hay or chase ten or a dozen miles after some keow critter that has got out o' the paster, an' then ye have all that milkin' to do over again at night an' ye finish up yer chores by lantern light the longest day in the year, when all that happens, ma'am, ye ain't in no condition to git sentimental over 'lights an' shadows' an' 'peaceful scenes' an' sich like. That's two sides to ev'ry proposition an' I reckon my side o' this beauty business ain't the same as yours. 'Glowin' sunsets' and 'rosy mornins' don't appear the same to me as to you!"—Judge.

should be along lines of agriculture, as more easily understood and more interesting to the students. He gave concrete examples by quoting problems in arithmetic which dealt in terms and materials familiar to children of the farm. The use of familiar terms, he explained, added interest and practical application to the training of the brain of the child.

Prof. Cotton also declared that the ideal country school would be in the future develop into the center of social life of farming communities. He advocated the establishment of clubs among the pupils with competitive features, such as corn growing contests for the boys and cookery and sewing contests for the girls. He also declared that the country school should be instrumental in organizing clubs for the betterment of the parents and other adults of the communities.

To do all these things, stated Mr. Cotton, efficiency in teaching will be required. He said that at the present time the standards of ability and scholarship for the country schools are in practically every place too low. He made a plea for a uniform standard fixed by law, of character, scholarship, and teaching ability, to which all applicants must conform before being allowed places as instructors.

Prof. Cotton closed his address with a plea for larger salaries. He declared that it would be impossible for the new standards of efficiency to be enforced without also raising the wages paid to teachers. To do this he declared that the simplest way would be to increase the school funds in the state by a slight increase of the local and state tax rates.

AMERICANS HELD IN FILTHY PRISON
Former Students of Oberlin College Are Arrested as Spies in Italy

PANDORA, Ohio, Nov. 10.—Suspected by officers of the Italian army of being spies, arrested and held in a filthy prison for nine months without being permitted to appeal to American consuls, was the experience of Rev. Albert Schumacher and his brother, a merchant of Pandora. The two brothers have just returned from Europe and have reported their case to Secretary Knox. According to Rev. Schumacher, he and his brother started to walk across the mountains from Feltre. Each carried a knapsack and a camera. After passing through the village of Fonzasso, they were stopped by soldiers and thrown into prison, murderers being their cell mates. Nothing but soup, served in filthy bowls, was given them to eat. Rev. Schumacher asserted, and they were not permitted to explain that they were Americans. Both Schumachers were physical wrecks when finally released. "The cell in which we were confined contained no table or chairs," said Rev. Schumacher. "After eating our soup, the prison cook let a man go into the cell to clean out the bowl. For three days I did not eat. When we were finally released, we demanded to know why we had been imprisoned, but no explanation

A Permanent Cure For Chronic Constipation

Although those may dispute it who have not tried it, yet thousands of persons, who speak from personal experience, assert that there is a permanent cure for chronic constipation. Some of these persons were cured for as little as fifty cents, and that the cure never came back on them, while others admit they took several bottles before a steady cure was brought about. The remedy referred to is Dr. Caldwell's Syrup Pepsin. It has been on the market for over a quarter of a century, by one person telling another. The fact that it is so strong and permanent constipated—makes it certain that the claims regarding it as a permanent cure for constipation have not been exaggerated. It is not violent like cathartic pills, or waters, but operates gently,

Mrs. Sam Johnson and Miss Hannah Lynch were callers in town from Ettrick recently.

Mr. and Mrs. A. H. Mitchell of this city were visitors at Trempealeau

NOT SALTS, OIL OR PILLS BUT CASCARETS

No odds how sick your Stomach; how hard your head aches or how Bilious—Cascarets make you feel great

You men and women who somehow can't get feeling right—who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping clean inside with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep; cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.

Wednesday, the guests of O. M. Mitchell and family.

E. H. Cleveland of Trempealeau spent Tuesday in La Crosse.

Mr. and Mrs. H. Rudnick and daughter have returned to New Albin after a few days' visit here.

Charles Bock and son Glen of New Albin were in the city on business Tuesday.

Miss Hope Robinson of New Albin is the guest of Miss Alta Hemphill.

Mrs. C. H. Upham and daughter of De Soto were recent callers in the city.

H. D. Brotsma of De Soto was operated upon for gall stones at a local hospital. The surgeons removed 135 stones.

License for the marriage of Miss Laura Thoreson and Matt Niedercorn of the towns of Greenfield and Shelby, was issued yesterday.

Jerome Felzer, this city, procured a license for the marriage of Miss Margaret Hansen today.

NOTICE
I want to sublet the carpenter work on the city hall and library building at Preston, Minn. Will give the work to a good man that can work from plans. Have two good carpenters at work at this time. Call or address F. Ress, Tibbits House, Preston, Minn.

BRYAN WOULD FORCE TAFT TO SHOW HAND
LINCOLN, Neb., Nov. 10.—Democrats and progressives in the senate are urged by William J. Bryan to block the confirmation of Justice Harlan's successor unless President Taft "shows his hand." In his Commencement speech Bryan said:

"If President Taft persists in his refusal to make public the reasons for the appointment of the successor to Justice Harlan, then the progressive democrats and republicans in the United States senate have an opportunity to render distinct service to popular government. When the president sends to the senate the name of Justice Harlan's successor, let the progressive democrats and republicans demand that the president submit to the senate a statement of the verbal and written reasons upon which the appointment was made."

"This is an opportunity which the senate ought not to permit to go by."

BRACELETS!

IRVINE
The biggest bargains in fine gold filled bracelets. We have just received from two of the largest Jewelry Manufacturers in Providence four gross of the newest and finest bracelets. These bracelets are made for the Christmas trade and to start trade early we are going to offer some wonderful bargains. We can do so because we buy all our goods direct from the makers, saving the jobbers and wholesale dealers' profits amounting to 60 per cent. Think of saving 60 per cent on your purchases and that is just what you are doing when you buy from us. We sell strictly for cash so the cash paying customers do not have to help pay a lot of bad debts which are bound to accumulate to all dealers who do a credit business.

Wholesale Retail Price Price

Large flat bracelets 3/4 in. wide, hand engraved, English finish \$5.67 \$9.00

Large oval bracelets 3/4 in. wide, hand engraved, English finish 5.67 9.00

:: SOCIETY ::

A BIRTHDAY PARTY
Mrs. Daniel Larson of South Fifth street, entertained a few friends at her home on Thursday afternoon and evening. The occasion being her fiftieth birthday. The rooms were beautifully decorated. At 6 o'clock a bounteous dinner was served after which the evening was pleasantly spent and all departed after wishing Mrs. Larson many happy returns of the day. Those present were the Messrs. and Mesdames Daniel Larson, George Larson, Mesdames Sarah Luther, Bertha Wolford, Hoffman, Hall, Steinmetz, Schaffer, Eggan, J. Wolford; Misses Mabel Stanton and Andary Larson, Ione Steinmetz, Daniel Larson, Jr., was also present.

Mrs. Larson was in receipt of many remembrances from those present.

ENTERTAINS AT DINNER
Mrs. Alex Hyslop was hostess last evening at a handsome dinner given in honor of Mr. and Mrs. Argyle Scott of Billings, Mont., and Mr. and Mrs. Roland Goddard. Other guests present were Mrs. Elsie Gile Scott, Mrs. Jessie Holway, Mrs. S. S. Heberd, Mr. and Mrs. F. G. Tiffany, Mr. and Mrs. N. S. Donaldson, Mrs. Hiram Goddard and Mr. and Mrs. Charles Botsford.

BIRTHDAY SURPRISE
Mrs. Harries Davis, mother of Mrs. Fitzpatrick, of 1302 Jackson street, was pleasantly surprised Wednesday afternoon by a party of her friends in honor of her seventy-sixth birthday. Mrs. Davis was presented with a bunch of magnificent chrysanthemums in honor of the event. Those present were Mesdames Chatfield, Fitzpatrick, Howard, Lockman, Mable, Oaks, Schroeder, Wilbur, Wallace and A. Fitzpatrick.

ANNOUNCEMENT
Announcements have been received here of the coming marriage of Emil J. Kircheis, Jr., of Billings, Mont., to Miss Esther G. Rutter of Perryville, Wis. They will be at home at Laurel, Mont., after Jan. 1, 1912.

Mr. and Mrs. Sam Johnson announce the engagement of their daughter Olga to Mr. Arthur Hogan of Geneva, N. Y. The wedding will take place the latter part of the month.

PARCEL SHOWER
Mrs. D. Wallace entertained at a parcel shower yesterday in honor of Mrs. Wolsey at her home, 1629 South Fifth street.

SOCIAL BRIEFS
Mrs. Shephard and daughter, Miss Helen Shephard and Mr. Earl Tiffany of Billings, Mont., arrived last evening and are guests of Mr. Tiffany's parents, Mr. and Mrs. F. G. Tiffany. Mrs. H. E. Hinkley left last night.

ENTERPRISE IN NOVEL READING
Everybody is up to date in this bustling age. Even the readers of popular novels want their stories served fresh. The Chicago Record-Herald, recognizing this fact, has arranged to give its readers the whole of Cyrus Townsend Brady's rousing new romance, "The Chalice of Courage," as a serial before anybody can get it in book form. It is said to be an exceptionally interesting—even daring—love story. The heroine is snowed up for weeks in a Colorado mountain cabin with an attractive young hermit. The part played by the villain also is said to be startling dramatic. Lovers of good fiction will appreciate this chance to get a fine American story hot off the bat.

HIGH CUT SHOES

SIMPLE SCHEME TO GET RICH QUICK

CHICAGO, Nov. 10.—Get rich quick schemes of J. Rufus Wallingford, facile financier, are as the blundering activity of children compared with a plan submitted to Postmaster D. A. Campbell.

The plan is simple. It is nothing more or less than to feed rats to cats, skin the cats and feed the cats back to the rats, in endless succession, the only break being the deduction of the cat skins, the sale of which, is to supply the profit.

The writer, outlining his plan, said: "We will start a cat ranch, getting 1,000,000 cats. Each will have twelve kittens a year. Cat skins are worth 10 cents for white ones and 75 cents for black. They will average 30 cents each. There's 12,000,000 cat skins a year, a daily gross income of \$10,000."

"A man can skin fifty cats for \$2, and it will take 100 men to operate the ranch, leaving our profit more than \$9,000 a day. We'll have to feed the cats. How?"

"Start a rat ranch next door. Rats multiply four times as fast as cats. We will have, therefore, four rats a day for each cat—a plenty. How to feed the rats?"

"Simple. Feed them on the cat bodies, a fourth of a cat per rat—amplified sufficient. Thus, you see, the business will be self supporting and automatic all the way. The cats will eat the rats and the rats will eat the cats—and we get the skins and wealth. Are you with me?"

BASEBALL MIXUP STARTS ON COAST

CHICAGO, Nov. 10.—That the battle of the services of Orville Overall, former star, is the entering wedge for the formation of an outlaw league on the Pacific coast was reported here today as the reason for the visit here of J. Cal Ewing, owner of the "Frisco club in the Pacific coast league.

The magnates who are promoting the new league, it was said, plan to "cop off" some of the stars of the two major leagues, pay them enormous salaries and "cleanup" at the expense of the Pacific coast authorized organization.

Exchange of Labor.
Miss Martha Leland Sherwin, daughter of George W. Sherwin of the First National bank, is four years old. She is a very polite little girl—much more so than her brother, Jim, whose age record barely takes him beyond half-past-one. Being a boy, Jim assumes every prerogative of boyhood and lords it over his elder sister mightily.

In this difficult position Martha has proposed a plan of operation to her mother.

"I'll tell you what let's do, mother," she suggested. "We'll just send Jim down to the bank and then father can stay at home and play with me."—Cleveland Leader.

Preparing the Ground.
Here is one domestic servant who did not intend to lose her place—or her perquisites—through any lack of frankness with her employer.

Cook (on the day of her arrival)—Please, mum, I'm a bit fierce at times, and when I'm fiery I'm apt to be a bit rough-spoken; but you needn't let that put you out. With a little present you can always bring me round again.—Youth's Companion.

PANAMA CANAL IS NEARING COMPLETION

WASHINGTON, Nov. 10. — The great mechanical problems connected with the construction of the Panama canal, which is to be opened in January, 1915, pass in review in the annual report of the isthmian canal commission, just made public. The record of the year's achievements includes: Completion of almost three-quarters of the Culebra cut. Total excavations from Culebra during year, 16,221,672 cubic yards at average cost of 58.8 cents a yard. Big plans laid for terminals, including storage of fuel, fresh water, and other supplies, repair facilities, etc. Pacific terminal to have dry

dock, storehouse, and coaling stations. Practical completion of plans of all docks. Elaborate scheme for lighting. Safeguarding against landslides.

DANISH WOMEN WANT VOTE

COPENHAGEN, Nov. 10.—Danish women have started a movement which not only aims at securing the vote, but also aspires to better the social position of women. To help the cause the presidents of the "Dansk Kvindesamfund" have instituted a "saving week" during which all the women in the country are invited to save as much as possible from their housekeeping money, the money saved to go towards carrying on the propaganda.

MONEY SYSTEM NEARS A CRISIS

People Should Study Monetary System to Protect Themselves from Harmful Legislation

IS IMPORTANT SAYS SENATOR

Former Lawmaker Urges People to Study Conditions and Cost of High Living

MADISON, Wis., Nov. 10.—(Special.)—Intelligent interest in the money question on the part of the mass of the American people as a preventive of ill-considered or partisan legislation on the subject is absolutely necessary if selfish interests are not to shape such legislation to their own advantage, according to former State Senator W. H. Hatton of New London. Senator Hatton is devoting much time in Madison at present to the task undertaken by the state board of public affairs in solving the problem of the high cost of living. Senator Hatton is a successful lumberman and business man who has given the subject serious deliberation. He says:

"The money question is one of the most important, and in its ramifications the most far-reaching, of any single question. It affects the person who earns the smallest wage and the capitalist with the largest income. The money system of a nation effects the relative value of every piece of property and the whole social system. It may be made the instrument of injustice; while many consider it purely an economic question, economic injustice is social injustice.

"Notwithstanding the fact that our bankers are as able, our banks are as reliable, as the banks of any other country, and our money is sound (all being at par redeemable in gold), still it is the opinion of many of our business men, and the settled conviction of others, that our monetary legislation has not kept pace with our development, and therefore requires revision and amendment.

"The subject has been referred to a congressional commission for investigation and that commission has already prepared a tentative plan, and will doubtless submit its report to congress at the next session, thus bringing the whole subject formally before congress. An attempt will be made to amend our monetary laws and perhaps to completely change our banking and monetary system.

"To legislate in any way affecting our monetary system is important; to undertake to revolutionize the monetary system of this nation is a great undertaking and of momentous concern to every individual and demands the highest type of statesmanship, and should have the thoughtful attention of every citizen.

"As our forefathers refused to adopt the old world system of government, because it was based on a different theory of the rights of man than the theory on which this nation is founded, so we cannot adopt and transplant European banking and monetary theories and systems on account of the wide difference between American and European social and economic conditions and theories.

"We should of course study other monetary systems and profit by the experience of other nations, and as the nation has become a world power with vast and increasing international trade, commercial and social relations, we must of course have a monetary and banking system which shall not only enable us to do business efficiently at home, but which will put our business men, insofar as money is concerned, at least on a plane of equality in the markets of the world.

"Our monetary legislation should be as free from favoritism or bias as the law of gravitation. To work out a system which shall be adapted to the practical every-day life of our people, and sufficiently comprehensive to cover international transactions and to meet the demands made upon it at times of unusual stress, requires not only the investigation and wisdom of a few men composing a commission, or even the whole body of men in congress, but it needs thorough research, deep study, sincere consideration and discussion of the whole money question by all people without partisanship or prejudice, in order that the combined wisdom of the whole nation may be brought to bear on this question.

"There is a rich store of wisdom underlying American society. Our people possess a peculiar power, when aroused, of solving intricate problems of government. This power becomes available and the collective wisdom and force is brought into action through public discussion.

"It cannot be said that we as a people are indifferent to our public duties, but we certainly are negligent and seem to be so engrossed in our personal affairs that we give little time to the study and discussion of public questions. A great many of us seem to have overlooked the fact that in a republic public affairs are personal affairs and have vital relation to the social and economic life of each individual.

"Special selfish interests, ever alert, take advantage of the indifference and apathy of the people. It has been said that 'eternal vigilance is the price of liberty,' but vigilance without knowledge is of little value. To be effective it must be supplemented by an intelligent appreciation of the question at issue and of the end sought. Let us not wait

A PERFECT KITCHEN

Can Be Had By Every Woman in La Crosse.

Somebody is going to get one for nothing. What we want you to do is to come in and examine the Hoosier Kitchen Cabinet that we have on display and make a guess as to how many pieces it contains. The Store out of the High Rent District.

until laws on this subject, which selfish interests may have helped to frame, shall have been enacted, but let all the people study the money question in all its phases that we may be prepared, not only to pass judgment intelligently upon any proposed plan, and after careful scrutiny to grind to powder through the mill of public discussion any unworthy scheme that may be presented, but also to be able to initiate a sound comprehensive plan.

"As a people we seem to prefer to wait until laws are enacted and then, when forced into action, in order to overcome the effect of considered and unwise laws, and to combat the

power of self seekers who were active and secured an advantage under the law, we then study the law and point out its defects instead of taking the initiative and directing the enactment of just laws by bringing the great power of public opinion to bear upon important legislative questions during their formative stages. Many of our present troubles could have been avoided if vigorous investigation and wide public discussion had preceded the enactment of some of our important laws.

"Our experience has proven beyond question that the great majority of the men in legislatures and in congress are conscientious public servants striving to render faithful service to the nation. Their tasks are not easy. They are called upon to act upon hundreds of different questions and to overcome the machinations of the active selfish interests. It is not surprising that mistakes have been made. It is due to them that we study public questions in order that we assist them by intelligent counsel and sincere criticism.

"There is a growing interest manifested in the banking question and this is an opportune time for serious study and calm consideration of the whole question of money before it becomes the tool of the demagogue, or falls into the control of selfish interests. All our people should take an active interest in this matter and promote discussion of this money question through business and professional men's association, farmers' unions, clubs, labor organizations, lecture courses, newspapers, etc., during this fall and coming winter, to the end that well informed public opinion will scrutinize any measure submitted to congress and may not only influence but initiate legislation on the subject. America has the right to originate and the courage to adopt new systems."

HELPFUL HINTS ON HAIR HEALTH

Scalp and Hair Troubles Generally Caused by Carelessness

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hat-band is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "93" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that we think that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in La Crosse only at our store—The Rexall store. O. T. Erhart.

FROZEN BEETS HARMFUL

MADISON, Wis., Nov. 10.—Recent investigations in the college of agriculture of the university of Wisconsin tend to show that when beets are frozen and afterwards allowed to thaw, they often prove a dangerous food for livestock. A poisonous substance is produced in the processes of freezing and thawing which causes sudden paralysis of the heart. Beets that have not been frozen are an excellent food for stock.

LORD MAYOR HAS SHOW

LONDON, Nov. 10.—Sir Thomas B. Crosby, 81 years old, and the first physician ever elected lord mayor of London, was formally sworn into office yesterday. All the usual qualifications but now-days slightly ridiculous ceremony was observed, and traffic in the busiest part of the city was held up for four hours by the procession known as the "Lord Mayor Show."

DIES BY MISTAKE

PARIS, Nov. 10.—Died by mistake. Such is the verdict in the case of Mme. Muzattion, aged 80, who lived near Moulins. A soldier presented himself at her door. He was provided with a lodging ticket, citizens being required to house troops at the command of the government. The old lady opened the door, saw the soldier and fell crying: "My God! I'm declared!" She was dead when picked up.

Another needless formality is an invitation to a dance where one must play for the privilege.

DOMESTIC MARKETS

New York Stocks.
NEW YORK, Nov. 10.—The railroad list was strong at the opening of the stock market today, gains ranging from one to two points being established in the important western issues. The industrials did not share in the strength, Steel receding half.

11 a. m.—Recessions of about a point prevailed at the end of the first hour with the tone generally heavy.

Governments unchanged; other bonds irregular.

Noon—Realizing on a large scale continued throughout the forenoon but the market held steady.

2 p. m.—Trading was active in the afternoon, but price changes were narrow.

The stock market closed generally strong.

New York Money.
NEW YORK, Nov. 10.—Money on call 2% per cent.

Time money 3% to 3% per cent for six months.

Bar silver: London 25% d.; New York 56 3/4 c.

Demand sterling 486.95 & 487..

Chicago Barley.
CHICAGO, Nov. 10.—Cash barley 85c to \$1.25.

Chicago Grain Letter.
CHICAGO, Nov. 10.—In the absence of support today for a flood of selling orders, wheat prices took a tumble. The drop came a few minutes after the opening, when a lack of short interest was apparent. All the foreign reports were bearish.

Much the same spirit was manifested in corn. The bear feeling in wheat and the daily drop in cash corn prices more than offset the bullish weather report, indicating rain over a good portion of the crop area, and rain and snow predicted in sympathy with the other grains.

Provisions were dull and easier. Lard opened a bit higher but weakened later when the demand was satisfied. The selling was scattered.

Oats acted very heavy and the

market moved in sympathy with the other grains.
